# ASBESTOS RIP-OUT

## Dealing with Asbestos in the Industrial Environment

## A SYMPOSIUM

**Marriott Key Bridge Hotel**
**Arlington, Virginia**
**March 27 & 28, 1984**
**Washington, D.C.**

Organization Resources Counselors, Inc.

### PURPOSE

It is the purpose of this Symposium to examine a number of practical methods by which asbestos found in the workplace can be safely handled, removed, and legally disposed of.

Dealing safely with asbestos in the workplace requires a good industrial hygiene program, and the Symposium will examine some of the important aspects of such programs.

### TOPICS TO BE COVERED

Among the wide range of subjects and issues that will be treated by authoritative speakers are: respiratory protection; monitoring; disposal; medical surveillance; legal problems; regulatory agencies; estimating risk; asbestos in office buildings; plant and building demolition; and dealing with contractors.

### WHO SHOULD ATTEND

Any organization that has employees involved in the removal or rip-out of asbestos on an occasional or frequent basis will find the presentations of immediate value. The Symposium is designed to meet the information needs of those who have the responsibility for asbestos removal operations and who must deal directly with the many problems that are associated with it. The Symposium will be conducted on a practical, not theoretical basis.

### THE SPEAKERS

The Symposium will feature individuals with a broad range of knowledge and a wealth of experience in all of the areas pertinent to dealing with asbestos in the industrial environment. From epidemiological studies on the workforce of large corporations, to the demolition of whole plants, the speakers at this Symposium have dealt first hand with asbestos and have evolved practical, effective ways of working with it.

ABIH Maintenance credits have been applied for.

## SYMPOSIUM AGENDA

### TUESDAY, MARCH 27, 1984
### MORNING SESSION

Introduction:
Richard F. Beggs, Ph.D.
Vice President, Organization Resources Counselors, Inc.
Darrell R. Matthias
Consultant, Organization Resources Counselors, Inc.

**An Overview of the Asbestos Problem: The History, The Present, The Future.**

Industrial Hygienist
Clayton Environmental Consultants

### GENERAL INFORMATION
### Dealing with Asbestos in the Industrial Environment

### REGISTRATION

Because attendance must be limited, you are urged to reserve a place as soon as possible. The registration fee includes attendance on both days of the Symposium, one copy of the Symposium Proceedings; continental breakfasts, luncheon at The View Restaurant (a fine restaurant that overlooks the Potomac River and Georgetown), and beverage breaks, on both days; plus a wine and cheese reception after the Symposium on March 27.

### FEES

$350.00 for ORC Occupational Safety and Health Group members, and $450.00 for non-members.

Make checks payable to Organization Resources Counselors, Inc. Complete the attached registration form and return it with your check to:

Organization Resources Counselors, Inc.
1625 I Street, N.W.
Suite 622
Washington, D.C. 20006

All Registrations Will Be Confirmed.

### CANCELLATIONS

Cancellations received after March 16, 1984 are subject to a $30.00 administrative charge. No refunds will be made without advance notice of cancellation.

### SYMPOSIUM SCHEDULE

The registration desk will open each day at 7:30 a.m. and the meeting will start at 8:30 a.m. Luncheon will be served at 12:00 noon, and adjournment will be at approximately 5:00 p.m.

### ACCOMMODATIONS

A block of rooms has been reserved at The Key Bridge Marriott Hotel for the nights of March 26 & 27, 1984. Registrants should mail the hotel room reservations form directly to the hotel.

**FOR FURTHER INFORMATION**
Write ORC at the address above or call (202) 872-1380.
