I. DEFINITIONS AND INSTRUCTIONS

1. "Document" is used in the broadest possible sense and refers without limitation to any written, typed, or other graphic material, of any kind or nature, and any other tangible thing by or on which information or data is stored or can be obtained, translated (if necessary) by Monsanto through detection devices into reasonably usable form, including without limitation, any writing, drawing, film, graph, chart, photograph, phono-record, mechanical, or electrical sound recording or transcript thereof; any retrievable data, whether in computer storage, carded, punched, taped, or coded form or stored electro-statically, electro-magnetically, or otherwise; and any other data compilation from which information can be obtained.

Without limiting the generality of the foregoing, "document" specifically includes all contracts, agreements, labels, invoices, bills of sale, promotional materials, advertisements, forms, correspondence, letters, telegrams, telephone messages, notices, notes, memoranda, reports, studies, analyses, working papers, statistical statements, financial statements, financial analyses, opinions, forecasts, budgets, projections, audits, press releases, brochures, pamphlets, circulars, minutes of meetings, notes and summaries of investigations, statements, worksheets, summaries, books, journals, ledgers, audits, maps, diagrams,

1 drafts, newspapers, appointment books, desk calendars,
2 diaries, inter and intra office memos and communications,
3 faxes, and telexes.

4 Such terms shall also include all contemporaneously
5 or subsequently created non-identical duplicates or copies
6 and all drafts, preliminary versions or revisions of
7 documents, whether or not completed, by whatever means made.
8 As used in this Notice, "document" also includes every
9 "document" that is no longer identical by virtue of any
10 notation or modification of any kind.

11 2. Whenever appropriate, the singular form of a
12 word shall be interpreted in plural, or vice versa; verb
13 tenses shall be interpreted to include past, present, and
14 future tenses; the terms "and" as well as "or" shall be
15 construed either disjunctively or conjunctively, as necessary
16 to bring within the scope of the requests in this Notice any
17 documents that might otherwise be construed to be outside
18 their scope; and words imparting the masculine include the
19 feminine and vice versa.

20 3. Any reference to a person, corporation,
21 association, partnership, company, or joint venture shall
22 mean that person or entity, any parents, affiliates,
23 divisions, controlled companies, subsidiaries, or otherwise
24 related entitles, and all of his, her, or its current or
25 former agents, representatives, employees, attorneys,
26 accountants, officers, directors, auditors, and consultants,
27 or other persons or entities acting, or purporting to act, on
28 its behalf.

1 4. The documents requested herein specifically
2 include all documents in the possession, custody, or control
3 of Monsanto Company ("Monsanto") including parents,
4 affiliates, divisions, controlled companies, subsidiaries, or
5 otherwise related entities, or any of Monsanto's current or
6 former agents, representatives, employees, attorneys,
7 accountants, auditors, directors, officers, consultants, or
8 other persons or entities acting, or purporting to act, on
9 Monsanto's behalf.

10 5. "Monsanto" or "Monsanto Company" means Monsanto
11 Company and its parents, affiliates, divisions, controlled
12 companies, subsidiaries, or otherwise related entities, or
13 any of Monsanto's current or former agents, representatives,

15 officers, consultants, or other persons or entities acting,
16 or purporting to act, on Monsanto's behalf.

17 6. "Transwestern" means Transwestern Pipeline
18 Company, the plaintiff in this action.

19 7. "Texas Eastern" means Texas Eastern
20 Transmission Corp., which was Transwestern's corporate parent
21 until 1984, and which was succeeded in 1979 by Texas Eastern
22 Corp., which is now known as Panhandle Eastern Pipeline
23 Company.

24 8. "Turbinol" means the PCB-containing gas
25 compressor lubricant sold by Monsanto under the name Monsanto

28 polychlorinated biphenyls.

1 10. "Relevant period" means the period of time
2 during any part of which Monsanto developed, designed,
3 tested, manufactured, promoted, advertised, distributed, or

6 11. "Communication" is used in the broadest
7 possible sense and refers to any meeting, discussion,
8 presentation, contact, proposal, memoranda, letter, telegram,
9 telex, cable, telecopy, fax, telephone call, or any other
10 communication, or notes thereof, or document relating
11 thereto, whether formal or informal, and includes the
12 transmittal, in any manner or medium, of information, facts,
13 or ideas.

14 12. "Relating to" means constituting, concerning,
15 containing, evidencing, showing, or referring in any way,
16 directly or indirectly, to the subject matter of the
17 particular request in this Notice.

18 13. The use of the word "including" shall be
19 construed to mean "including without limitation."

20 14. All documents produced are to be produced in
21 their entirety, without redaction, and including all
22 attachments and enclosures. If, for any reason, a document
23 cannot be produced in full, please state with particularity
24 the reason or reasons it is not produced in full, and
25 describe, to the best of Monsanto's knowledge, information,
26 belief and with as much particularity as possible, those
27 portions of the document that are not produced. When a
28 document is only in part responsive to any request in this

1 Notice, it shall nevertheless be produced in its entirety.

2 If documents that are produced are normally kept in a file or
3 other folder, then that file or folder must also be produced.

4 15. That more than one request in this Notice may
5 ask for the same document is not to be interpreted to narrow
6 or to limit the normal interpretation placed upon each
7 individual request.

8 16. Unless otherwise indicated, the documents to be
9 produced are those created, or believed to have been created,
10 at any time from the first day of the relevant period, as
11 previously defined herein, up to and including the date of
12 this Notice.

13 17. If any document requested to be produced herein
14 was in Monsanto's possession, custody, or control, but has
15 since been disposed of, lost, discarded, destroyed, or
16 partially destroyed or is otherwise unavailable, please
17 provide the following:

18 (a) The nature or type of the document,
19 including any title or identifying number thereon (e.g.,
20 letter, report, memoranda);

21 (b) Its date or origin or preparation;

23 (d) The name of its addressee, if any;

24 (e) The name of all recipients of any copy of
25 such document;

4 (i) The date or approximate time of the
5 disposition, loss, destruction, discarding, or when the
6 document became unavailable; and

7 (j) The reason for disposition, loss,
8 destruction, discarding, or unavailability of the document,
9 and the person, if any, responsible therefor.

10 18. File folders with tabs or labels identifying
11 documents responsive to the requests in this Notice should be
12 produced intact with such documents.

13 19. Documents attached to each other shall not be
14 separated.

15 20. If responsive documents are kept together in
16 the usual course of business, they should be so produced, in
17 order fairly to reveal and not to distort the order of
18 Monsanto's filing and record-keeping system.

19 21. Electronic records and computerized information
20 should be produced: (a) in an intelligible format; or (b)
21 together with a description of the system from which they
22 were obtained sufficient to render the records and
23 information intelligible.

24 22. Each document produced should be produced in a
25 manner that makes clear the precise request or requests in
26 this Notice (i.e., the paragraph number of the request) to
27 which the document relates.

1 23. If any of the documents requested below are
2 claimed by Monsanto to be privileged or otherwise withheld,
3 Monsanto is requested to provide for each such document, with
4 sufficient specificity to identify that document for purposes of
5 a motion to compel further discovery:

6 (a) a specific statement of the ground and
7 authority upon which Monsanto is relying in withholding
8 production; and

9 (b) a statement which sets forth;

10 (i) the identify of the document's author(s)
11 and every person who is known by Monsanto to have either helped
12 in its preparation or received a copy of the document;

13 (ii) The title or other identifying data;

14 (iii) the date of the document, or, if no
15 date appears thereon, the approximate date;

16 (iv) in summary, the nature and subject
17 matter thereof;

18 (v) the identity and location of each person
19 having or last having had possession, care, custody, or control
20 of the original and each and any copies thereof; and

21 (vi) if the document was, but is no longer in
22 Monsanto's possession or control, state what disposition was
23 made of it, including, but not limited to, specification of the
24 name and address of the person(s) who disposed of the document
25 and the date, time, place, mode, or method of the disposal.

26 24. When this Notice does not specifically request a
27 particular document, but the document would help to make the
28 production complete, comprehensive, or not misleading, please

1 produce the document. Only non-identical copies of a document
2 are to be considered separate documents.

3 25. Where there are no documents in Monsanto's
4 custody, control, or possession that are responsive to a
5 particular item, please so state.

6 26. This Notice shall be deemed continuing so as to
7 require further and supplemental production if Monsanto obtains
8 additional documents between the time of initial production and
9 the time of trial.
