

1 Q Okay. Do you recall that in that study, as
2 well as in the 1976 study, it didn't involve
3 mesothelioma?

4 A That is correct.

5 Q Okay. You also talked about the Kauppinen
6 study from Finland.

7 And I think you indicated in response to one
8 of my questions that Mr. Hoffman gave you that study;
9 is that correct?

10 A Yes.

11 Q Okay. Now, am I correct that that study was
12 neither a case control study nor a cohort study, as we
13 understand the terms?

14 A That study, if I remember correctly, was
15 basically a study from national registers.

16 Q Okay.

17 A And involved, also, of course, measurements
18 of dust concentrations in various settings.

19 Q Okay. So it wasn't a case control study; is
20 that right?

21 A That is correct.
