

Stands the Gaff!

Thicknesses from
1/8" to 1/2". Sheets
36" x 40" and
larger.

DAY in and day out... for months at a time... gaskets cut from GARLOCK 7021 Compressed Asbestos Sheet stand up

against light oils at unusually high temperatures such as exist in the big oil refineries. And they are equally effective against super-heated steam at extreme pressures.

Specially developed for severe service, GARLOCK 7021 High Pressure Sheet gives superior performance against *all* light oil and steam conditions. Try 7021 in your plant!

THE GARLOCK PACKING COMPANY, PALMYRA, N. Y.
