

CHEMICAL MANUFACTURERS ASSOCIATION

March 6, 1992

Dear Vinyl Chloride Panel Research Coordinators:

Once again, we are having difficulties organizing a conference call on March 10 or 12, because of the unavailability of many participants. Dr. Otto Wong is unavailable from March 16 - 25, because he is testifying as an expert witness in Houston. The new dates for the conference call are listed on the attached sheet. Please complete the conference call participation form and return it to me by fax as soon as possible.

The enclosed documents are for your information and review. Your review of the article entitled, "Critical Review of Cancer Epidemiology in Petroleum Industry Employees, With a Quantitative Meta-Analysis by Cancer Site," will facilitate the discussion of a similar publication for vinyl chloride.

If you have any questions, please call me at (202) 887-1192.

Sincerely,

Hasmukh C. Shah, Ph.D.
Manager, Vinyl Chloride Panel
