

1 that he wanted to go to his home, so we held a funeral

4 And they presented him with the flag, and I

9 Q And after his death, you were appointed the
10 personal representative of his estate?

11 A Yes.

12 Q Now, after your husband died, what happened
13 with respect to your health?

14 A He died May 26th, 1990. I was in the
15 hospital August and had an operation. And I have
16 osteoporosis, something with the cell and carpal
17 tunnel syndrome and if I had it before, it never
18 started acting up until after, you know, he got sick
19 because he was big, big, I would say, you know, 210
20 pounds and I weighed 106, that is my normal weight,
21 106 pounds. But I wasn't skinny like I am now.
