Dear Friend Kenny:

On December 19, a problem on T.D.I. at your inland plant Vandalia, Ohio was refered to me by our Department of Industrial Relations. This problem originated with the labor union and a representative of the Department of Industrial Relations thought it serious enough to refer to me.

I would like to visit this plant Wednesday, January 9, at or before 10:30 a.m. I would like to meet a representative of the Industrial Hygiene staff of G.M. at the plant at that time. I hope they come prepared to sample for T.D.I. as I am not sure that my equipment will be available.

As indicated below, I am sending a copy of this letter to Cas, who probably will be responsible for the sampling.

If Wednesday is not satisfactory I could be there on Friday 11th. I will be in Cincinnati the following two weeks.

Very truly yours,

DeWitt Huffman
Industrial Hygiene Engineer

cc: Vincent J. Castrop
Personnel Staff
Industrial Hygiene Department

1/7/63 Walter Konz should and I will meet John S. Stephens there at or after 9 a.m. Friday 9 am 11.
Dr Johnston

39.
