230 works, thanks.

Hi everyone,

Looping in Dalton Marshall's LD. Just spoke with him. He said he has a 2p.m. tomorrow so wanted to see if 2:30p.m. tomorrow works instead? He said if it doesn't, he will try to move his 2p.m. I also created a conference call # to make things easier.

The dial-in number is (b) (6) . Access code is (b) (6)

Let us know if 2:30p.m. works Aaron if you would. Look forward to chatting with everyone tomorrow.

Subject August Recess Travel Planning Discussion
Location DCRoomARN3528/OCIR
Show Time As Busy

The August recess will be here before we know it and hill schedulers are already starting to lock in dates for their members recess plans. I am going to pull all of the requests we have from MOC's and Govs to see which events we could/should do and build programs around those events.

Also, we should think about events that allow the Administrator to highlight his/POTUS' accomplishments.

The purpose of this meeting is to start to build out the framework for a robust August travel scheduler.

 Good morning all,

Just a reminder that the next meeting of legislative affairs teams will take place next Friday, May 19th at 9:00 am in room 212 of the EEOB. As Marc mentioned last week, we'll do our best to keep it to 30 minutes.

If you do not have WH Badge access, please fill out your information via the link below. As a reminder, the information you submit must match what is on your driver's license.

(b) (6), (b) (7)(C)

Please let me know if there is anything you'd like us to address and I will make sure it's added to the agenda.

Finally, if there has been any changes to your leg affairs teams, please let me know so I can ensure our records are up to date. It would also be helpful to get everyone's direct office and cell phone numbers. I've re-attached our team's information as well.

Look forward to seeing everyone next week.

Best,
 Cat

I would propose the following agenda:

- Introduction of attendees
- Brief description of CO1

- What and where
- Delineation of the issue and the plight of CO1
- Brainstorm Solutions with EPA
- Next steps

Attendees:

Robert G. Riley, Jr.

Joseph P. Riley

Joshua Andrews

AJ Moore

Devin Mogler

Ken Markowitz – not completely sure if he is attending or not yet

Overview of the issue:

- We need help from this administration to correct the wrong conclusions of the past administration
- In 2015 EPA has indicated that CO1 is a bio-intermediary
- We believe this is an erroneous conclusion – we have legal and industry opinions supporting CO1 as well as scientific data backing us up
- EPA indicated for more than 2 years that a rule would be forthcoming to give bio intermediaries access to the market- no viable market access has materialized
- Other industries/feedstocks are operating in precisely the same manner as CO1 and are given access to the market
- We need help from the Trump administration to correct the wrong conclusions of the Obama administration

It will just be Bob and the only other addition may be Joseph Riley his son. Bob's full name is Robert G. Riley Jr.

I have asked about topics to be covered and I will get back to you.

Amy

Morning Amy,

It looks like Wednesday, June 21 at 2:00 will work best. Let me know if that works on your end and I will confirm. Will it be just Bob or will others be attending as well? If so, I will need all attendees full names to send to security. Additionally, if you could give a brief overview of the topics to be discussed and send over any materials that we should review beforehand that would be great. Any questions just let me know.

Best,

Alex Dominguez

Hi Amy - I was informed this was going to be a face to face as Bob would be in DC the 21/22. If this is incorrect not a problem and we can do it over the phone.

UPDATE: Adding a draft response and the May 5 letter it references.
The Administrator was also asked about this during the appropriations hearing:

McCollum:

Another thing that's just been in the news and I'm sure -- well, I'm not sure -- I know you saw it that there were reports that you failed disclose e-mail account that you had while you were attorney general, the one at esp@oklahomaag.gov <mailto:esp@oklahomaag.gov> .

And it's kind of distressing because at your hearing you said you only had two e-mail addresses and now this third one came forward. So you weren't completely accurate at the time. And Senator Whitehouse said that you had several opportunities to correct the record on your e-mails. He -- in fact, he has a letter, which I'm submitting for the record, that goes on to say, "Since your (ph) public disclosure of your e-mails that Congress is learned of your relationships with energy companies that now regulate the EPA."

So, I want to, for the record and you can get back to us asking what you're using for e-mail addresses as EPA administrator, what other forms of electronic communication that you're using because I want to build a level of trust between all of us. So, that ...

PRUITT:

If I may, both in my oral testimony as well as in -- there's a letter actually that's submitted to EPW in May that recognized multiple states e-mail accounts. So, there's been a consistency there that the representations that you're citing are not accurate. So, we have informed the committee that was consistent with my oral testimony. We will provide you information about the current activities as well.

Hi all – This is to discuss the attached letter from Senator Whitehouse and others on the Administrator’s email addresses while OK AG. Please let me know if anyone else should be involved. Please note that this is not our usual room – 3528 is at the opposite end of the hall.

Subject S. 203, RPM Act Technical Assistance call with SEPW majority staff

Location DCRoomARN3428/OCIR; call-in: (b) (6), code: (b) (6)

Show Time As Busy

This invite is for the SEPW staff Technical Assistance call for OECA and OCIR-- OTAQ decided to only do the prep, OGC is optional, to discuss the proposed language for "motor vehicle" below.

6/29 Update: SEPW intends to consider S. 203 in July and would like EPA technical assistance next week. Given that OTAQ, OECA, OGC are not all available until 7/6, I am scheduling the Hill TA call immediately following our internal discussion.

SEMA has been on the Hill regarding the House and Senate RPM Act bills, with the following characterization provided to Hill offices:

The Clean Air Act prohibits the EPA from regulating racecars ("vehicles used solely for competition"). The race exemption applies to purpose-built race vehicles in addition to motor vehicles converted for race-use-only. In July 2015, the EPA issued a provision within the proposed Phase 2 Medium- and Heavy-Duty Greenhouse Gas Standards stating that the agency had always considered it illegal to convert motor vehicles into racecars or sell emissions-related race parts for those

modified vehicles. The draft rule sparked an enormous public outcry. While the EPA removed the provision from the final greenhouse gas rule, the agency has not abandoned its new interpretation of the Clean Air Act. The EPA still contends that it is illegal to sell legitimate racing parts for use on converted motor vehicles and that installation of the part is an act of tampering. Whether or not the EPA enforces against the individual, the racing industry and enthusiasts remain under threat as companies will no longer sell or install racing products.

SEMA proposed the following edit to SEPW staff. I had a preliminary conversation with SEPW staff to note some concerns with this proposal, but we will need to have a follow up discussion as a group to discuss the impacts of this potential amendment to the “motor vehicle” definition:

Section 216(2) of the Clean Air Act (42 U.S.C. 7550) is amended by striking “.” at the end of paragraph (2) and inserting “and that is not a vehicle used solely for competition, including any vehicle so used that was converted from a motor vehicle.”

The term “motor vehicle” means any self-propelled vehicle designed for transporting persons or property on a street or highway and that is not a vehicle used solely for competition, including any vehicle so used that was converted from a motor vehicle.”

 Aaron,

I just left a voice mail message, but wanted to follow up with an email.

We have heard from Senator Gardner's office that Administrator Pruitt would in fact be available to speak on August 2nd during our opening dinner (Beaver Creek Colorado), but haven't been able to get confirmation from the Senator's office of that. I'm hoping that you might be able to shed some light on whether or not the Administrator would in fact be able to speak at that time. We would of course welcome him to speak anytime during the day on the August 3rd as well, if that fits his schedule better.

Please let me know as soon as possible, as we're needing to print our program for the Annual Meeting next week.

I appreciate your help, and look forward to hearing from you.

Best,

Brian Fakharzadeh

 Hi everyone –

The 2017 ECOS-EPA Leadership Meeting provides an opportunity, following Monday’s ECOS STEP meeting, for open and robust dialogue on the federal-state relationship with the ECOS Executive Committee. It is expected that as many as 20 to 25 State Environmental Commissioners, Secretaries and Directors plan to attend. An agenda is being finalized and will be available shortly.

If you have any questions or would like additional information please do not hesitate to contact Andrea or me.

		Hi everyone –

An important part of the FY 2019 budget development process is the Senior Leadership Council meeting. This meeting brings together all the senior leadership, HQ and the regions, to discuss agency priorities and resource needs in order to inform decisions for the FY 2019 Budget due to OMB in mid-September. Given there are many people new to this effort, Tuesday afternoon is dedicated to hearing from the program teams to establish a common understanding before launching into Wednesday's planning and resource discussions. Wednesday's sessions begin by setting the stage with presentations and discussions on key building blocks for the FY 2019 budget followed by small group and full group discussions to identify programmatic options for consideration in the FY 2019 OMB Submission. On Thursday, updates are proposed on the First Line Supervisor Advisory Group efforts and Executive Order implementation.

An agenda with more details will follow shortly and be included in the meeting invitation. You should receive an invitation for each day since the times vary. In addition, invitations to the +1s for Wednesday, 7/19, will be sent separately.

If you have any questions please do not hesitate to reach out to Mike Flynn or me.

Thank you, Robin

Subject Senior Leadership Council Meeting - Day 2
Location WJC-N 3rd Floor, The Green Room
Show Time As Busy
Hi everyone –

An important part of the FY 2019 budget development process is the Senior Leadership Council meeting. This meeting brings together all the senior leadership, HQ and the regions, to discuss agency priorities and resource needs in order to inform decisions for the FY 2019 Budget due to OMB in mid-September. Given there are many people new to this effort, Tuesday afternoon is dedicated to hearing from the program teams to establish a common understanding before launching into Wednesday's planning and resource discussions. Wednesday's sessions begin by setting the stage with presentations and discussions on key building blocks for the FY 2019 budget followed by small group and full group discussions to identify programmatic options for consideration in the FY 2019 OMB Submission. On Thursday, updates are proposed on the First Line Supervisor Advisory Group efforts and Executive Order implementation.

An agenda with more details will follow shortly and be included in the meeting invitation. You should receive an invitation for each day since the times vary. In addition, invitations to the +1s for Wednesday, 7/19, will be sent separately.

If you have any questions please do not hesitate to reach out to Mike Flynn or me.

Thank you, Robin

Hey Christian,

I wanted to see if you might have time after 2:30 pm to chat about the CCR Rule and Sen. Lankford's bill, S. 1512, the Transparency and Honesty in Energy Regulations Act. Let me know a good time that might work on your end.

Thanks,
Will

Draft backgrounder attached (Oct. 8 3:25 pm)

Hi everyone,

Here's a time for an internal pre-call for the Wednesday, noon, discussion with NC local officials and Congressional staff on GenX.

I'll add more information to this invite by mid-day tomorrow after gathering additional details from our contacts with the NC delegation and the City of Wilmington, including an attendee list and proposed agenda.

Finally, thanks again for everyone's flexibility, given challenging scheduling. I know this time will not work for the full group, but I'm hoping this ensures that each office (+ R4) can send appropriate folks to this pre-brief to ensure we're ready for Wednesday, and to share any questions or concerns that you might have with me and the group.

DC folks can call in or participate in person in WJC North 3428.

Thanks,
Matt

Updated with internal agenda and GenX background doc (neither for external distribution – solely as internal background) – August 8, 5:30 pm

Hi everyone,

Following up from my message late yesterday (8/3), here is a calendar invitation for the call with North Carolina local officials and NC delegation staff to discuss GenX. Invitees include Region 4, ORD, OW, OCSPP, and OECA, plus OCIR.

Thanks to everyone who's already sent me names of participants; I've done my best to add everyone to this invite who has contacted me thus far. (I've tended toward over-inclusion to ensure everyone is aware of timing; I'll defer to each office about who is best for the pre-call and who is best for the call.) Please forward to others who I have missed.

I'll be working to find a potential time soon for a pre-call next Tuesday 8/8, and will invite this same group to that pre-call.

In the meantime, let me know if you have any questions.

Thanks,
Matt

UPDATE: Adding call-in number

(b) (5) (b) (5))

Extension: (b) (5)

Participant Code: (b) (5)

Hi all – This meeting is to discuss our response to the attached congressional oversight letter, inquiring about employee travel involving charter flights or company jets. OCFO is included to discuss the charter element, and OGC Ethics is included to discuss flights in company jets as gifts.

Please let me know if you'd like me to add a call-in number.

Thank you,

Kyle

Conference Line: (b) (6)

Passcode: (b) (6)

Mandy will open the line

On the call:

Stephanie Groen - Director of State-Federal Relations. Office of the Governor, State of Iowa

Devin Mogler – Legislative Assistant. Senator Joni Ernst

Corn Oil One. Will most likely include:

Robert G. Riley, Jr Corn Oil One

Joseph P. Riley Corn Oil One

Joshua Andrews – FaegreBD – corporate lawyer

Ken Markowitz – Akin Gump

Hey Tate,

I hope all of your trips in August have been going well!

I wanted to loop back with you on Corn Oil 1 after our conversation in Iowa. Could you help schedule a phone call between Corn Oil 1 and Mandy for sometime next week? Devin and I would like to be on the call as well.

Corn Oil 1 is still not understanding why they are being placed in the bio-intermediary category. It'd be helpful from my end if Mandy (or whoever is the correct person) could loop Devin and I in on the reasoning for labeling them as such before the call.

Thank you SO much for all of your help on this!

Best,

Stephanie

Hi all – This would be to discuss our response to the attached congressional oversight letter from Senator Carper on our grants approval process. I am also attaching a draft response to a different congressional letter on the same topic. I'll draft a response to Carper using this as a basis. If everyone is OK with that draft a meeting may not be necessary, but I'd like you to reserve this time on your calendars in the meantime just in case.

Thanks,

Kyle

Subject: NAAQS Standards/ New Source Review Issue

Hey Christian, Bill recently met with AMG Vanadium, a company located in his district in Cambridge, Ohio. As you might know, the company is a leader in processing and metal reclamation of spent catalyst, used to produce ferroalloys sold to the steel industry. AMG V currently supplies 40% of the United States (U.S.) steel producers' ferrovanadium requirements with the balance coming from imports.

AMG V is planning to expand its roasting capacity, and as outlined below, that expansion will either be in Cambridge, Ohio or in Canada. At AMG V's Cambridge plant, there are two multi-hearth roasters for spent catalyst processing; however, AMG V is currently only permitted to operate one roaster at a time.

AMG V is exploring operating both roasters simultaneously with the addition of a second flue-gas desulphurization unit (FGD). However, this Ohio-based expansion that would allow both systems to operate at the same time would require a regulatory change, given that the EPA considers this to be a new source. Furthermore, they believe that if they modeled this new source, it would not pass NAAQS for the emission of SO₂, particulate matter, and possibly CO. With that said, it is helpful to provide a context: Operating the second roaster and FGD unit in the same manner in which they are currently operating, they estimate only 20 pounds of SO₂ per hour would be emitted.

Because of the anticipated constraints and timeline for expansion, AMG V has been exploring alternative sites outside the United States. Engineering and site development work is currently underway in Canada. But if possible, AMG V would prefer the expansion to take place in Cambridge... as the Southeastern Ohio region could really benefit from the additional jobs that will be generated through this expansion, as well as the indirect economic impact that comes in the form of local contractor spend.

Would the appropriate staff at EPA be willing to meet with AMG to further discuss this issue? More than happy to hop on the phone and answer any questions/ concerns. My direct: 202-226-8520.

Thanks for taking a look,

Dave

State Clean Diesel Grant Program

This action approves an award in the amount of \$275,689 to the Commonwealth of Kentucky to provide assistance with its efforts to reduce diesel emissions and exposure throughout the State. Kentucky Department of Air Quality plans to solicit proposals from school districts looking to replace older models 1995-2006 school buses with 2017 or newer buses. This project will reduce emissions of diesel particulate matter and other pollutants such as NO_x, Carbon Monoxide and Hydrocarbons.

 Code: (b) (6)

Hi all – This meeting is to discuss our response to the attached congressional oversight letter on workforce reduction and budget.

I know this time doesn't work for all of the invitees but I doubt we can find a time that works for everyone due to our numbers. If you are critical to the response and cannot attend, please let me know. Tuesday, 9/26, at 4PM may also be a possibility.

Thank you,

Kyle

Subject: Quick Chat Today

Hi Bill,

I wanted to see if you would have a couple minutes today to talk about some potential questions and themes that you would like majority members to question you on. We have an idea of these but of course what your input.

Please let me know when you have some time to talk today and we will give you a call.

Thank you!

Hi guys,

Wondering if you could entertain a request for a meeting/conversation with Meijer regarding numerous changes to inspection and testing requirements for fuel retailers. Meijer operates 40 stores in Ohio – 32 of which include gas stations – and over 230 stores across the Midwest.

As you know, there are numerous changes to inspection and testing requirements/standards for fuel retailers with USTs under the EPA’s final rule from 2015. Many states (over 30) have decided to pursue their own UST programs in compliance with the EPA. Those state programs will phase in at different times over a number of years. Five of Meijer’s six Midwestern states (MI/OH/KY/IL/WI), however, have not established state programs and will all be subject to compliance on the same date: October 13, 2018.

Meijer has determined that compliance with this rule will require replacing major equipment and running elaborate tests that will not only cost them millions of dollars, but will require them to shut down entire gas stations for days at a time for testing and inspections. The cost will be significant to fuel retailers across the region.

I have cc’d Andrew Martin and Erik Petrovskis at Meijer. I am sure they can fill in on details that I have missed. Thank you in advance for your help in this matter!

Per Nick Bush

Deputy Chief of Staff

Rep. Steve Stivers

Some quick bullets on the topic below

-RINs continue to be a significant burden on merchant refiners, including those in Ohio and the Midwest

-We've been made aware that many comments that were submitted to EPA on its proposed 2018 Renewable Volume Obligation rule are to improve the program specifically related to RINs.

-RINs trading is something that has been brought to our attention and in some of our discussions has been painted as essentially become an unregulated commodities market.

- We have viewed the intent of RINs as representing a small compliance cost for refiners, not a regulatory burden that it has grown into

-Rep. Stivers would like to discuss those comments and hear from the administrator related to improving the availability of RINs and their best use moving forward.

Troy,

Hope you're doing well. Are you available to talk over the phone at some point tomorrow morning, maybe 10:45? We would like to discuss RINs. Look forward to talking soon.

Best,

**Time** 10:30 AM – 11:00 AM  
**Subject** Call with Senator Capito's Office to Discuss Violations Concerning the Putnam County WV Service District  
**Location** WJCS-6144E  
**Attachments** SKMBT\_C35317100613340.pdf  
**Show Time As** Busy

Senator Capito's staff would like to have a call to discuss violations concerning the Putnam County Public Service District. Apparently, they were issued a Lead Consumer Notice due to a technicality for failure to follow up with their ratepayers. According to Capito's staff, the Putnam County PSD feels this is unfair since they are materially compliant with the regulations and are concerned the violation has sown unwarranted concern with their customers.

Attached is a letter to Capito's office from the General Manager of the PSD and Capito's office would like to know if EPA can review this violation and if possible, dismiss it.

**Show Time As** Busy  
Michal/Kyle—do you all have time in the next day or two to discuss document searches? The purpose is to explain the process as it relates to OCIR submitting a request to EZ-Tech (I believe that is the group) for documents related to a particular subject and then waiting for EZ-Tech to produce the documents. As I explained, this can be a lengthy process so I want to make sure we all (including me) have all of the information about how this process works.

Thanks for putting this in hopper for Zach C Rod.

Let's all 4 of us also read and huddle this week to gather our thoughts on the bill.

Tony and C Rod I'll let you all find time that works for everyone.

All,

Attached to this email is the relevant information for the bill that my colleague is running. Below is his correspondence with Leg Counsel to provide some context on the goal.

I appreciate your willingness to take a look at the legislation to confirm that it will do what he's hoping.

Best,  
Zach

Hi Logan,

Attached is a discussion draft for your review. I highly recommend consulting with the stakeholders and EPA if possible to ensure the attached draft takes care of the problem you would like to address.

In looking into this issue- it seems that the "contraband exclusion" is in regulation promulgated for new source performance standards for new and existing "other" solid waste incineration units (OSWI) under the Clean Air Act.

The regulations mentioned in the document you provided are under 40 CFR Part 60 - STANDARDS OF PERFORMANCE FOR NEW

STATIONARY SOURCES, including 40 CFR Part 60, Subpart EEEE - Standards of Performance for Other Solid Waste Incineration Units for Which Construction is Commenced After December 9, 2004, or for Which Modification or Reconstruction is Commenced on or After June 16, 2006; and  
40 CFR Part 60, Subpart FFFF - Emission Guidelines and Compliance Times for Other Solid Waste Incineration Units That Commenced Construction On or Before December 9, 2004  
(See also <https://www.epa.gov/stationary-sources-air-pollution/other-solid-waste-incinerators-oswi-new-source-performance#additional-resources>)

To whom it may concern:

The attached document is an EPA guideline that is impacting our state. One section in the document is titled "The 'Contraband Exclusion' Does Not Apply to Burning Pharmaceuticals from Take-Back Programs." It addresses the fact that confiscated Pharmaceuticals, whether acquired through take-back programs or other means, are not considered "contraband" and thus do not fall under a "contraband exclusion". We would like a bill expanding this rule so that our local law enforcement may incinerate ANY confiscated pharmaceuticals they have. Currently, our law enforcement evidence rooms are filling up because of the lack of abilities to dispose of these pills.

We are hoping this could be a kind of urgent request. The state law enforcement and legislature described the situation to us as "nearing critical mass" and we would like to get it to the floor as quickly as possible. Please let me know what you need from me.

Section 1: Registration of Pesticides

p. 1, lines 18-20: This is the regulatory definition of “destruction or adverse modification of habitat.” Is there a reason why this doesn’t recite statutory language as was done for jeopardy? Similarly, why use the term “survival” instead of “continued existence”?

Industry response: Past Service regulatory efforts and litigation in Federal Appeals Courts have added content into the Section 7(a)(2) obligation with regard to habitat protection. The Services’ regulations were criticized for failing to ensure a broader and more nuanced habitat outcome than “continued existence.” Given this background and uncertainty, concerns were raised that repeating the statutory language only might face similar complications. As a result, this functional definition was proposed to make clear that when EPA “ensures” that TES and its habitat will not be jeopardized, then EPA’s administrative record would demonstrate that it considered direct and indirect impacts; whether action would appreciably diminish the “value” of habitat for “recovery as well as conservation”; and that, based on the best available commercial and scientific information used in EPA’s risk assessment, the relevant factors of location, life history, habitat needs, distribution, threats, population trends and conservation needs, relevant physical and biological features of designated critical habitat were considered in reaching a determination under the revised FIFRA subsection (5)(E) approval standard. Given recent adverse litigation history finding that the Services’ regulations did not adequately protect both conservation and recovery and the subsequent Services’ proposed regulatory actions, adopting the functional definition in a revised FIFRA is consistent with the new approval standard to “ensure” and avoids the “second-guessing” risk that the Services have encountered.

p. 2, line 3: EPA says screening level analyses do not typically include higher tiered probabilistic eco risk assessments. EPA suggests wording change to incorporate a tiered approach which starts at the screening level and progresses to higher tiered analyses if/when necessary.

Industry response: The language, “an economical and effective screening process that includes higher-tiered probabilistic ecological risk assessments, as appropriate,” is intended to avoid overly prescriptive language and to authorize EPA to develop a useful process that works to produce a JAM determination in a timely way, allowing for a defensible process - a reasonable way to ensure that ecological risk assessments include a valid determination of the risks of jeopardy to TES or adverse modification of habitat (“JAM”).

Question from Senate Ag to EPA: on page 2, line 3 can we strike “that includes” and insert “and”?

p. 2, lines 17-19: What happens if EPA doesn’t get good population data from the Services? Will EPA be able to make a jeopardy decision under FIFRA, that places the burden of proof on an applicant?

Note from Senate Ag to EPA: we acknowledge industry doesn’t directly answer the agency’s question. Can the agency focus on reasonable timeframes and scenarios for available data.

Industry response: EPA can use the best available information that the Services convey to make its JAM determination. Yes, EPA can make JAM determinations under FIFRA and its burden of proof is to account for and utilize the best scientific and commercial information and data available, from whatever source, as an integral part of EPA’s risk assessment. Provided that EPA can rely upon the Services and incorporates this data into its ecological risk assessments at the outset, then EPA can ensure that the JAM determination is informed and reasonable. Under such circumstances, EPA then would not be required to consult under the Services’ “general consultation” rules that give the Services an after-the-fact review and approval of EPA’s action. Consultation is not defined by ESA or the Services’ regulations, the 2004 Joint Counterpart Regulations identified it as a form of “interagency cooperation” with each agency contributing its “expertise” to solve the problem and avoid the bureaucratic struggles that have resulted in years of bureaucratic infighting and stalemate, and uncertainty. This type of interagency cooperation is consistent

with ESA and the Joint Counterpart Endangered Species Act Section 7 Consultation for regulatory actions under the Federal Insecticide, Fungicide and Rodenticide Act set forth at 50 C.F.R. part 402, Subpart D.

p. 2, lines 20-21: Do you envision EPA having authority to consult at the agency's discretion?

Industry response: No, EPA would only "consult" in the traditional sense if its JAM determination finds "jeopardy or adverse modification" and at the request of applicant. This language substitutes "interagency cooperation" in the risk assessment process before EPA makes a FIFRA decision for the "after-the-fact" general consultation procedures that were previously superseded in 2004 for FIFRA by the "Joint Counterpart Endangered Species Act Section 7 Consultation for regulatory actions under the Federal Insecticide, Fungicide and Rodenticide Act" set forth at 50 C.F.R. part 402, Subpart D, as promulgated on September 7, 2004, or as amended. The language requires that any "consultation" that does occur is governed by the Joint Counterpart regulations. Given renewed Congressional support for EPA's discretion to make an "effects determination" (now called a JAM determination) using "interagency cooperation" as described in the preamble to the Joint Counterpart regulations, then EPA will be ensuring that its FIFRA approval criteria are adequate to ensure that TES and habitat are not jeopardized or adversely modified. Under such circumstances, EPA's determinations should obtain deference from courts in supporting its JAM determinations.

## Section 2: Applicability of 5(E) Criteria

p. 3, lines 11-16: EPA want to know is the intent to make clear that EPA cannot consider benefits of use if the pesticide jeopardizes listed species?

Industry response: No, EPA can consider benefits with regard to unreasonable adverse effects on the environment. This language proposes to introduce the JAM determination as a new requirement to the FIFRA registration standard, directing the EPA to "ensure that when used in accordance with widespread and commonly recognized practice, an approved product is not likely to jeopardize the survival of a federally listed threatened or endangered species or directly or indirectly alter, in a manner that is likely to appreciably diminish its

value, critical habitat for both the survival and recovery of the listed species.” In section 3 of this language, EPA is directed to develop a work plan and processes for implementing and enforcing standards of registration consistent with section 3(c)(5)(E) on a schedule with registration reviews and other periodic reviews. This plan should give EPA the opportunity to develop a process for considering benefits and risk in its ecological risk assessments, including both unreasonable adverse effects on the environment and the new JAM determinations.

Question from Senate Ag to EPA: any recommendations on how to reconcile this?

### Section 3: Implementation

If the language doesn’t amend the registration review schedule (and is limited to making the ESA portion of the decision), what happens in the next go round of registration review?

Industry response: Intent was to add this JAM or subsection (5)(E) element to existing registration review and return to regular order after the first cycle is completed. For all subsequent rounds of registration review, the JAM determination would be included as part of the normal review.

Is the intent to change the registration review deadline for all purposes or simply for the ES Determination. If the latter, would EPA still be required to consider ES as part of its obligation to make an unreasonable adverse effects determination by the existing registration review deadline?

Industry response: Change is for all determinations. 48 months were added to do so.

Question from Senate Ag to EPA: on page 5 line 9, does it help striking (E)?

p. 5, lines 12-13: This only gives EPA 4 years post Reg Review to complete effects determinations for over 1200 a.i.s. EPA would need a

quick screening process for NE/NLAA calls and automated tools for the rest to meet these deadlines. Most concerning is that we still don't have an agreed upon method – if possible it would be better to set deadlines based x # of years from the point at which we have an agreed upon method. Perhaps instead of saying redo all the conventional reg review cases by 2026, the drafters can say that EPA will do ESA effects determinations in the next round of reg review for chemicals scheduled to have risk assessments starting on/after 2022.

Industry response: The intent of the language is to eliminate the NE/NLAA calls and use JAM as the standard under subsection (5)(E). There is no “right” answer regarding an implementation schedule, but it should be a schedule EPA can meet.

p. 5, lines 12-13: EPA also believes 4 years is too short for to do ESA assessments of the type envisioned here for 700 chemicals.

Industry response: The 48-month time frame to use JAM as the standard under subsection (5)(E) and add that timing to registration review was a good faith estimate of the time required for EPA to stand up a new process. If more time is reasonable, then it can be justified by the complexity of the tasks at hand.

p. 5, line 14: EPA thinks the date seems arbitrary.

Industry response: It is.

Question from Senate Ag to EPA: does EPA have suggestions on the timeframes for lines 12-13 & 14?

p. 5, lines 16-17: What was the intent of (3). Are new uses intended to be included? What are you trying to accomplish in these 48 months, meaning, if EPA now does an ES finding as part of an initial registration, why would it be needed in 48 months again?

Industry response: Section 3 references review of an “active ingredient” with the intent of avoiding ESA review of every registration decision per the 9th Circuit MEGA ruling. It was thought that EPA needed a lead time to get up to speed with the subsection (5)(E) determinations as a part of its risk assessment process.

How will new uses of existing chemicals fit into this schedule?

Industry response: Yes, section 3 of the new measure directs EPA to develop a work plan and processes for implementing and enforcing standards of registration consistent with section 3(c)(5)(E) consistent with registration reviews and other periodic reviews. This plan should give EPA the opportunity to develop a process for considering benefits and risk in its ecological risk assessments, including the both unreasonable adverse effects on the environment and the new JAM determinations. Section 3(b), page 4, line 29 to 31 does replace existing periodic review schedules but adds a new element directing EPA “to complete the determinations required by section 3(c)(5)(E) for an active ingredient consistent with the periodic review of registrations in clauses (ii) and (iii) of this section and in accordance with the following schedule...”

Note from Senate Ag to EPA: we think industry has the wrong reference in their response. We believe that they are referring to page 5, lines 8-11. On line 10, should that say “paragraph” instead of “section”?

What is the intent regarding active ingredients registered on the effective date through Oct. 1, 2021?

Industry response: EPA would have an additional 48 months to complete the subsection (5)(E) determination.

p. 5, lines 21-23: The language is the first clause is problematic, perhaps the words “attempt to” should be added before “renegotiate” since EPA can’t renegotiate an agreement alone, and can’t guarantee success in the endeavor.

Industry response: Language is intended to be aspirational so the addition of Report Language that EPA should attempt to renegotiate would be appropriate and helpful.

Question from Senate Ag to EPA: would report language work better?

p. 5, lines 21-23: Unless the other parties to the litigation agree, it is not clear what this direction will achieve. It should also be pointed out that FWS and NOAA have settlements with near term consultation obligations (2017 and 2018) on pesticides, so this provision would not alter those obligations. Under current EPA settlements, EPA has a consultation initiation obligation for 4 herbicides by 2020. Also, EPA has a current settlement of a jeopardy/take case (NCAP v. EPA) that calls on EPA to continue to place on its website non-FIFRA enforceable buffer zones in salmon habitat. If EPA were compelled to renegotiate these agreements and is unsuccessful, does this section direct EPA to stick with the agreements or litigate those cases?

Industry response: Although language cannot compel other litigants, the intent was that the language would support settlement or legal determinations that would limit settlement outcomes to establishing deadlines for making JAM determination under subsection (5)(E)

Question from Senate Ag to EPA: would report language work better?

p. 6 line 1: Is industry intending to limit only to FIFRA?

Industry response: Yes, only limit to FIFRA.

p. 6, lines 2-3: Is this belt and suspenders?

Industry response: Yes, this is belt and suspenders.

p. 6, line 7: Why a requirement to revise (instead of consider revising)?

Industry response: Language was intended to be permissive and authorize, not require, revisions.

Note from Senate Ag to EPA: we intend to change this to “consider revising”.

#### Section 4: Unlawful Acts

p. 7, lines 4-9: EPA notes incidental take authorization is generally accompanied by reasonable and prudent measures intended to minimize the impact of take. Nothing in this legislation suggests whether EPA should consider the need for such measures in evaluating labeling.

Industry response: EPA’s existing authority to label can be used to implement such measures.

#### Other Issues/Questions:

This language doesn’t address whether EPA has any obligation to “reinitiate” an ES determination for a pesticide. Under section 7 regs, action agencies must reinitiate when, for example, a new species is listed that may be affected by the action.

Industry response: Obligation to reinitiate only in Registration Review.

**Time** 1:00 PM – 1:55 PM  
**Subject** Meeting w/ Sen. Shaheen staff (+ EPW minority staff) on SDWA standards and H.R. 1068  
**Location** Hart 506 (additional logistics to follow)  
**Show Time As** Busy  
 Hi everyone,

Here's a calendar invite for the Monday meeting with staff from Sen. Shaheen's office (Ariel Marshall) and EPW Minority (Christophe Tulou) on the SDWA standards-setting process and H.R. 1068. We'll be doing this meeting in person, so I'm not including the full group from the pre-brief; I'm happy to adjust invitees after we figure out a plan at the pre-brief at 9 on Monday.

I've let Sen. Shaheen's staff know that we will need to leave a bit before 2 pm to return to EPA, and I've asked if we can move this slightly earlier to 12:45 pm. If 12:45 works for them, I'll adjust this invite.

Finally, we can discuss logistics – along with substance, of course – on Monday morning.

Thanks,  
Matt

Subject: Follow-up from call

Hey Sven,

Just to follow up on your call today... Because of the holiday, I still

haven't had a chance to visit with my boss about the phone call early last week, but I just wanted to run by you all what I've got to make sure my brain and notes didn't leave anything out:

EPA response thus far:

\* Worker Protection Standard & Certification of Pesticide Applicators Rules

o Will begin a rule making process, beginning with an Advanced Notice of Proposed Rule Making, to solicit comments and feedback on three aspects of the rule, including; minimum age; designated representative; and application exclusion zones.

o Will not delay the entire WPS during this process, but may delay the three targeted areas depending on how they proceed.

o Certification of Pesticide Applicators Rule continues to be delayed.

\* Unclear how that will be addressed.

\* Chlorpyrifos objection

o EPA plans to investigate chlorpyrifos in depth and is concerned that responding to the objections (which could take as much as 2 months) would impact that work.

o EPA will not prioritize response to the objections.

Thanks Zach and Matthew. I think we can call into your conference line. Also, attached is the updated text I just got back from Leg Counsel after consulting with Energy and Commerce.

Best,

Logan McVey

Zach,

2pm Tuesday 11/28 works on this end. If you guys will be in different places, you can call into the conference line: (b) (6) code: (b) (6). Otherwise, let us know what number we can call you and we'll give you a ring then.

Thanks,

Matthew

Christian,

Great to hear. How's Tuesday at 2 pm?

I've cc'd Logan McVey, who came across this regulation in the course of his conversations with a South Carolina opioid task force.

Looking forward to it,

Zach

Hi Zach,

Hope all is well! We have some TA on the legislation you shared with us to deliver to you. Would you be available next Tuesday or Wednesday for a call?

I am CCing Matthew Davis who is running point on this to help find a time for us all to connect.

Have a terrific day,

The Group expressed an interest in becoming an NEP. We plan to discuss potential project funding sources, in lieu of the fact that no additional NEPs have been added in many years, and there is no current application/consideration process.

 Hi all,

Hope everyone had a wonderful Thanksgiving. We look forward to hosting the group this Friday, December 1 at 9am in room 474 of the EEOB.

The link to submit your information for clearance is below. As always, please be sure the information submitted is identical to what is on your ID or your entrance to the complex will be delayed or declined.

Information must be submitted no later than 8am on Friday.

(b) (6), (b) (7)(C)

I don't believe we have any groups lined up to do introductions, so let me know if you want to volunteer to bring your team. And please let me know if there is anything you would like added to the agenda.

Best,

Cat

## Tuesday, December 5, 2017

**Time** 2:00 PM – 3:00 PM

**Subject** Call with SEPW and HEC Majority Staff to Discuss Nonprofits TA

**Location** Please dial (b) (6) code: (b) (6)

**Show Time As** Busy

EPW staff would like to discuss two main inquiries related to nonprofits:

\* Since the Senate bill does not contain the conforming amendment found within the House Bill, it seems likely that non-501(c)(3) nonprofits would still be eligible for grants under 104(k)(3)(A)(ii), 104(k)(3)(B)(ii), and 104(k)(6)(A). However, it is feasible that a court could now interpret non-profits as only 501(c)(3)s because they are the only nonprofit organization specifically mentioned in section (k).

\* Question: Would adding “other” after “eligible entities or” in sections 104(k)(3)(A)(ii) and 104(k)(6)(A) provide the fix we are looking for to avoid potential ambiguity? That way we specify that the nonprofit organizations are distinct from the 501(c)(3)s now defined as an eligible entity.

\* Follow-up question: 104(k)(3)(B)(ii) already says “eligible entity or other nonprofit organization.” Is this an anomaly in the text, or does it have a special meaning other than “nonprofit organization”? If we did add “other” to sections 104(k)(3)(A)(ii) and 104(k)(6)(A), I want to make sure that we preserve the correct meaning for section 104(k)(3)(B)(ii). I suspect that it may just be an anomaly and that it would actually be helpful to standardize all the references anyway, but wanted make sure we wouldn’t be messing with anything here.

\* Is it EPA’s position that most nonprofits (not just 501(c)(3)s) should have access to the assessment grant program? Are there any potential downsides to extending these types of grants that don’t exist in assessment grants and “research, training, and technical assistance grants” under 104(k)(6)?

### EPA TECHNICAL ASSISTANCE PROVIDED TO SEPW MAJORITY- DECEMBER 1, 2017

1. Are nonprofits already eligible to receive Brownfields grants even though they are not included as an “eligible entity” under 104(k)(1)?

a. I see that 104(k)(3)(A)(ii) and (B)(ii) authorizes grants for nonprofits. Is this the mechanism through which they are already receiving

grants?

EPA RESPONSE: Yes. Per the sections cited, non-profits are eligible for cleanup grants and for “research, training, and technical assistance grants” under 104(k)(6). Non-profits are currently ineligible for other brownfields grants (e.g., assessment grants under 104(k)(2).

2. If a wide array of non-profits are already eligible, would the above-mentioned proposed addition make nonprofits that aren’t 501(c)(3)s ineligible for future grants?

EPA RESPONSE: Yes, due to the conforming amendments, which delete the phrase “non-profits” at 104(k)(3)(A)(ii) and (B)(ii) and replace it with the new definition of “eligible entity.”

3. If the above language would make these non-profits ineligible, what would be the best course to remedy it?

a. If nonprofits have already been receiving money, couldn’t we just remove this addition altogether?

EPA RESPONSE: Yes. Although removing this addition would continue to leave non-profits ineligible for assessment grants. If that change is addressed, the language could be amended to allow EPA to provide grants to non-profits to conduct site characterizations and assessments under 104(k)(2). An easy fix would be to delete the current amendment to the definition of eligible entity and simply add the words “nonprofit organization” to section 104(k)(2)(B)(i), so that the paragraph would read:

(i) In general

On approval of an application made by an eligible entity or nonprofit organization, the Administrator may make a grant to the eligible entity or nonprofit organization, to be used for programs to inventory, characterize, assess, and conduct planning related to one or more brownfields sites.

[note that the changes to the first sentence explain the problem that is addressed by the rest of the answer. By changing language to “non-profit” the language parallels what’s already in 104(k)(3).

**Subject** WJCN 2530  
**Location** Training for Active Shooter Preparedness  
**Show Time As** Tentative  
AO Colleagues,

Please plan on attending EPA's Active Shooter Response Training on Thursday, December 7th in WJCN 2530 starting at 9:00 AM.

It's important to prepare for a possible active shooter situation by locating the primary and alternate exits closest to you and walking through your work area to identify:

- \* Potential hiding places that provide cover (ballistic protection) and concealment (shooter cannot see you).
- \* Items nearby that could improve cover/concealment.
- \* Ordinary office items you could use to defend yourself against an attacker/active shooter.

You are strongly encouraged to review the Occupant Emergency Plan (OEP) for the building where you work; please visit the HQ Security in the Workplace <<http://intranet.epa.gov/oa/smd/hqsecurity/oep-index.htm>> intranet site to access the OEPs for Headquarters buildings. More information can be found on the Active Shooter Response and Preparedness

<(b) (5)>  
> intranet site.

Remember, during an Active Shooter event, you have three options based on where you are when you hear shots fired:

1. RUN: evacuate.
2. HIDE: seek cover and concealment.
3. FIGHT: take aggressive action.

If you have questions, please contact Bill Bellerose, HQ OEP Program Manager, at 202-566-2191 or [bellerose.william@epa.gov](mailto:bellerose.william@epa.gov) <<mailto:bellerose.william@epa.gov>> .

Heads up that we're having a call with Sen. Udall's staffer Jonathan Black on the registration review schedule for organophosphates, including chlorpyrifos. The call is on Mon, Dec 11 at 9:30am, call in number [REDACTED], code [REDACTED]. Yu-Ting Guilaran who head the pesticides re-evaluation division will lead the briefing. While the particular question is about the pesticide review schedule for the OPs, it stems from interest in the petition denial on chlorpyrifos. It's likely (b) (5)

[REDACTED] Please feel welcome to join the call and let me know if any questions. Thanks,

Subject: Organophosphate Pesticide reviews

Hey Sven,

After reviewing your website's schedule for pesticide reviews [https://www.epa.gov/pesticide-reevaluation/registration-review-schedules], I noticed that not only does Chlorpyrifos not appear in the registration review schedule, but neither do any organophosphate pesticides. It looks like EPA has removed all of the OPs from its pesticide registration review schedule for this fiscal year. Under the previous schedule, EPA should have completed registration review of the OPs this fiscal year.

Am I reading this correctly? Has EPA dropped OP reviews for this fiscal year? What is the rationale for doing this?

How does the timeline Nancy laid out for reviewing chlorpyrifos fit into this posted schedule?

**Subject** OA Holiday Photos w/ the Administrator

**Location** Administrator's office

**Show Time As** Busy

OA Colleagues,

As shared in Ryan Jackson's message, the Administrator will continue the tradition of taking holiday photos with EPA staff. OA's designated time is Monday, December 18, 2 pm – 4 pm. Here are the instructions for the photos this year.

- If you are interested in a photo with the Administrator, please reply to this e-mail and cc Emilo Cortes (Cortes.Emilo@epa.gov <mailto:Cortes.Emilo@epa.gov> ) by COB Today, Friday, December 15. The Administrator's office has requested a list of attendees by Friday COB to help manage the process. I sincerely apologize for the late email.

- Please plan to enter the Administrator's office using the William Jefferson Clinton South side entrance.

- You will be asked to gather/wait in the Green Room 10 minutes before OA's allotted time prior to entering the Administrator's office for a photo.

- Upon exiting his office, you will be guided to the Deputy Administrator's office.

- The official EPA photographer will take the picture of the Administrator and the individual staff member. In order to keep things moving, please do not bring your personal cameras, camera phones, etc.

- EPA employees should bring their badge to enter the Administrator's office and the Green Room.

- Please come promptly at the time assigned for OA.

- All photos will be posted online on EPA's multimedia site - . Once they are posted, you will be able to go on the website to select and download your photo.

Please contact myself or Emilo Cortes if you have any questions.

Thanks,

Helena

It's looking like our best shot at rescheduling is tomorrow, Thurs, Dec  
21 at 4:30pm or later. Please let me know if that works. Thanks for  
your flexibility,

Subject: POSTPONED - Senate Ag Call on FIFRA/ESA TA on Deadlines

Senate Ag just called asking to reschedule the 2:30 call on ESA TA. They are available after 4pm today and after 2:30 pm tomorrow. I let them know that we'll have difficulty covering those times and they apologetically insisted on doing the call to the extent possible. Better for folks to do it tonight or try tomorrow – please let me know availability. Thanks and apologies for the late notice,

Sven

 UPDATE: Hi all – I apologize for the late notice, but we have to move this meeting back to 2:15. Thanks

This is to discuss procedures and timelines for OGC review of oversight letters and document productions ahead of the January 30 hearing. I'll prepare a proposed schedule ahead of the meeting.

Thanks,

Kyle

Hello all, setting up this time to huddle on the latest plans and timelines for outreach and response re: CERCLA/EPCRA animal ag reporting requirements.

Apologies for short notice, but calendars are tight, and it sounds like some of the outreach materials may be ready tomorrow.

I tried to capture the appropriate key contacts given the multiple moving pieces (HQ and Regional Comms Strategies, Senate letter, etc.), but please do loop in any I missed.

**Location** DCRoomARN3428/OCIR / phone number added: (b) (6),  
conf. code = (b) (6)

**Show Time As** Busy

Here are Maggie's questions:

My office is looking at sources of agricultural emissions in the run up to the Farm Bill; I'm in the information gathering phase – so any info or background on AgSTAR's work would be very helpful.

Broadly, I was hoping to discuss the following questions:

- What does AgSTAR engagement with producers look like (particularly as it relates to smaller farmers and communities)?
- What is the extent of EPA interaction or collaboration with DOE or USDA on this topic?
- How does AgSTAR measure or calculate (avoided) methane emissions? Does it account for fugitive emissions?
- Does AgSTAR keep track of how producers finance anaerobic digesters?
- What are the major barriers to digester deployment?

I've also heard producers express concerns about digesters generally, characterizing the technology as still experimental rather than ready for widespread deployment. Are the ways Congress can/should support additional research or the deployment of pilot projects? Would there be a way to tie financing to avoided emissions?

**Attachments** REDLINE EPW Majority Amendment for Nonprofit Discussion 1.11.2018.docx  
**Show Time As** Busy  
Please dial (b) (6) code: (b) (6)

Part I of this discussion will only focus on the non-profits eligibility issue. Committee staff would like EPA to start off the call by explaining what currently is in/not in the statute concerning non-profits' grant eligibility. As you know, they would like to expand the universe of eligible entities and will provide EPA with some solutions they think will accomplish this goal (this is forthcoming). The call will then focus on discussing which option(s) would work best.

S. 822: We will be using the version that passed out of committee to the floor, which you can view here:  
<https://www.congress.gov/bill/115th-congress/senate-bill/822/text?q=%7B%22search%22%3A%5B%22s.+822%22%5D%7D&r=1>

H.R. 3017: We will be using the version that passed the House in November, which you can view here:  
<https://www.congress.gov/115/bills/hr3017/BILLS-115hr3017rds.xml>

Suggested language EPW Committee staff would like to discuss tomorrow and also attached, is an accompanying redline that bears out the changes in the code:

(a) In General.—Section 104(k)(1) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9604(k)(1)) is amended—

(1) in subparagraph (G), by striking “or” after the semicolon;

(2) in subparagraph (H), by striking the period at the end and inserting a semicolon; and

(3) by adding at the end the following:

“(I) a nonprofit organization, as determined by the administrator;

“(J) a limited liability corporation in which all managing members are organizations described in subparagraph (I) or limited liability corporations whose sole members are organizations described in subparagraph (I);

“(K) a limited partnership in which all general partners are organizations described in subparagraph (I) or limited liability corporations whose sole members are organizations described in subparagraph (I); or

“(L) a qualified community development entity (as defined in section 45D(c)(1) of the Internal Revenue Code of 1986);

(b) Technical and Conforming Amendments.—Section 104(k) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9604(k)) is amended—

(1) in paragraph (3)—

(A) in subparagraph (A)(ii)—

(i) by striking “or nonprofit organizations”; and

(ii) by striking “or organization”; and

(B) in subparagraph (B)(ii)—

(i) by striking “or other nonprofit organization”; and

(ii) by striking “or nonprofit organization”; and

(2) in paragraph (6)(A), by striking “or nonprofit organizations”.

**Subject** EPA Background Briefing for Senate EPW on PFAS & EPA Activities  
**Location** 406 Dirksen Senate Office Building  
**Show Time As** Busy  
 Hi everyone,

Here's a meeting invitation for our briefing for bipartisan staff from Senate Environment and Public Works on Thursday, January 11 from 4-5 pm.

I've included folks who were planned or likely attendees as required, and other folks as optional for awareness. As you can see, we already have quite a large group.

I'll work on transportation logistics and will send a separate note on that topic by Wednesday, January 10.

Thanks -- and let me know if you have any questions.

Excellent – we heard from Donna that the last she had heard, NOAA was looking for new leased space. Her contact at GSA actually

mentioned that Hagerstown, MD might be a location they were interested in. Donna is asking GSA for more information. However, if your contact can confirm where they are looking to relocate would be very helpful.

I have a conflict at 3:00 and am unable to join the call, but I look forward to hearing the outcome!

FYI, from Donna. Cardin's office will likely be getting the information we submitted to GSA in April, which includes the build out cost of new space in Ft Meade (\$1.5 million) an annual facility costs of \$99 thousand to stay in Ft. Meade.

Yes, the other is NOAA. I just spoke with the GSA person who heads up the R3 area. They have a request from Cardin's office for information. She is going to get the info and pass it along. It is also her understanding that we can't stay where we are. She will get me what she has in a few hours.

Subject: Chesapeake Bay

Hi Donna,

I see that the NOAA Ches Bay office is also located on Severn Ave, just in a different suite than EPA. Attached is a listing from GSA's website that shows space in Annapolis, which shows two properties at Severn, and both leases expire in 2019. The second record is clearly EPA, but I'm wondering if the first is NOAA? If so, has Vaughn had conversations with NOAA as to what their plans are to relocate in 2019? Would he be able to find out by tomorrow?

Thanks so much,  
Holly

 Subject: Informal Happy Hour - Celebrating One Year

Please join us for an informal happy hour to mark the completion of  
 the first year of the Trump Administration. We have a large space  
 reserved for our group in the back of (b) (6) (near the  
 White House). Please invite any friends of the Administration who  
 would like to celebrate with us.

See you there!

Brad Rateike  
 Director of Cabinet Communications

## Friday, January 19, 2018

**Time** 10:00 AM – 12:00 PM

**Subject** UPDATED with Agenda: Brownfields Technical Assistance Bipartisan Briefing Part II with EPW, HEC and T&I Staff

**Location** DCRoomARN3428/OCIR

**Show Time As** Busy

Please dial (b) (6) code: (b) (6); we also have a conference room in 3428 WJC North for folks to gather.

Part II of this discussion will focus on the differences between HEC's and EPW's approach to these issues in both bills:

Agenda:

Introductions (EPW, HEC, T&I, EPA)

Senate

1) The practical differences between the Clean Energy Brownfield program in the Senate bill vs adding clean energy as a consideration in the House bill.

2) Any data on past administrative costs for grants (since Senate caps costs at 8% and House caps at 5%)

3) Whether anything in the tax bill that was just enacted affects definitions regarding the universe of non-profits in the Uniform Guidance that are likely to be eligible, or if there are any other implications on how the program is likely to operate (e.g. if/how Brownfields grant monies are leveraged, etc).

4) When codifying the current enforcement discretion that excludes from liability government entities that acquire contaminated property, whether we inadvertently left out a 'due care' requirement.

#### House

1. Leaseholder/tenant liability protections (differences between House and Senate EPW approach)
2. Pre-2012 sites cleanup funds eligibility (differences between House and Senate EPW approach)
3. Owner/Operator – due/appropriate care

S. 822: We will be using the version that passed out of committee to the floor, which you can view here:

Subject: HEC and EPW Budget Briefings: Possible Meeting

Aaron and Christian,

Hope the day finds you both well.

As you know, we are approaching Budget Roll Out season. For planning purposes, Christina and I would like to meet with you next week to talk about your vision for each of the briefings.

Next Tuesday at 2 pm works on all our schedules. Let me know what your preference is.

Best,

Laura

**Subject** Dessert/Champagne (b) (6) Reception  
**Location** Green Room  
**Show Time As** Busy

We have quite the group of (b) (6) Reception next week to celebrate all of them! Please join us during the time below in the Green Room. Much like the AO Holiday Reception, we would ask everyone that if you'd like, to contribute a favorite dessert for the reception. You can drop off starting at 4PM that day. I will also be collecting a voluntary \$10 contribution to cover refreshments and small gifts for the guests of honor. If you would like to contribute, please give to me by this Friday if possible.

 Please dial (b)(6) code: (b)(6)

Senator's Toomey's office contacted EPW staff regarding the Lower Darby Creek Area Superfund site discussed here:  
<https://cumulis.epa.gov/supercpad/SiteProfiles/ind>

ex.cfm?fuseaction=second.Cleanup&id=0305521#bkgrou nd and requested a conference call via EPW to discuss the Folcroft Landfill portion of the site.

Specifically the discussion will focus on:

- Information from EPA about the proposed timeline,
- the level of EPA and FWS's interaction,
- when EPA anticipates finalizing a Work Plan and Remedial Investigation.

According to R3, this is a PRP driven request.

We are awaiting additional questions from Toomey's staff and this space will be updated upon receipt.

**Show Time As** Busy

Dear colleagues,

You are invited to participate in an Agency Call with OMB Senior Staff on Thursday, February 1st at 4:30 PM ET to discuss appropriations lapse planning. Per OMB Circular A-11, we are convening this call with agencies one week prior to the expiration of appropriations, regardless of whether the enactment of appropriations appears imminent.

Call Details

- \* Date: Thursday, February 1
- \* Time: 4:30 PM ET, please join 5 minutes early to avoid connection delays
- \* Participant Dial-In: (b) (6)
- \* Access Code: (b) (6)

To avoid capacity issues, we advise that each agency call in from a single line. This call is off-the-record and not for press purposes.

Best regards,  
The Office of Management and Budget

Hello, you are invited to attend a Town Hall Meeting about the William Jefferson Clinton (WJC) North Building Active Shooter Response Drill scheduled for February 21, 2018 from 2-4 p.m. on the 5th floor. Please attend the Town Hall to learn more and to ask questions about the drill.

There are two Town Hall sessions to choose from; choose the one that's best for your schedule:

\* Town Hall Meeting (session 1): February 6, 2018, 11 a.m., WJC East

1153

\* Town Hall Meeting (session 2): February 8, 2018, 2 p.m., WJC East  
1153

Also, in preparation for the drill, there are three Active Shooter Response Training sessions scheduled for staff who've never been trained or for those who need a refresher:

- \* February 13, 2018, 11 a.m., WJC North 5530
- \* February 14, 2018, 2 p.m., WJC North 5530
- \* February 15, 2018, 11 a.m., WJC North 6530

Contact Bill Bellerose at 202-566-2191 or [bellerose.william@epa.gov](mailto:bellerose.william@epa.gov) <<mailto:bellerose.william@epa.gov>> with any questions about the Town Hall or drill.

**Time** 11:00 AM – 12:00 PM

**Subject** Folcroft SF Site Discussion with Senator Toomey's, EPW and U.S. Fish and Wildlife Service Staffs

**Location** Dirksen Senate Office Building Room 468

Show Time As Busy

Please Dial Conference Number: (b) (6)

Conference ID: (b) (6)

Senator's Toomey's office contacted EPW staff regarding the Lower Darby Creek Area Superfund site discussed here:  
<https://cumulis.epa.gov/supercpad/SiteProfiles/index.cfm?fuseaction=second.Cleanup&id=0305521#bkgrou nd> and requested a briefing via EPW to discuss the Folcroft Landfill portion of the site.

The discussion will focus on:

- Information from EPA about the proposed timeline,
- the level of EPA and FWS's interaction,
- when EPA anticipates finalizing a Work Plan and Remedial Investigation.

According to R3, this is a PRP driven request.

Specifically, the Senator's staff are "...primarily interested in receiving a status update on several items, including the remedial investigation, feasibility study, and remedial action objectives. We are also hoping to understand EPA's level of communication with FWS, which is the current owner of the property, and how EPA's recent Superfund recommendations will impact the Folcroft site.

\* The remedial investigation (RI) for the Folcroft site has been underway for more than seven years, when the settling PRPs submitted a draft RI based on the Original Work Plan approved by EPA in 2010. Most recently, the PRPs submitted another draft of the RI to the EPA in 2017 that evaluated groundwater in the bedrock, which to my understanding was not included in a previous work plan. What decisions need to be made in order to finalize and approve the Remedial Investigation? What is the timeline for those decisions to be made?

\* EPA guidance requires that the agency consider future land use in the selection of a remedy. What communication has Fish and Wildlife (FWS), as the current owner and operator of the site, had with the EPA regarding the selection of a remedy for the Folcroft site? What remedies are under consideration?

\* What is the status of the development of RAOs and ARARs? Has FWS provided EPA with all of the information and feedback required to develop the ARARs for the site?

\* How do you anticipate the Administrator’s Superfund Task Force Recommendations will impact the remediation of the Folcroft site? For instance, the recommendations indicate that sites which have been on the NPL for at least five years without a significant movement will receive inquiry and additional resources. What inquiries and additional resources have been directed to the Folcroft Landfill -- which has been on the NPL since 2001? Further, the taskforce report recommends speeding up settlement when there is a federal PRP at a site -- FWS is a non-participating PRP at Folcroft. Could FWS delay selection and implementation of a remedy?”

 Subject: Meeting Request - Asst. Adm. Ross

Hey Guys,

I hope everything is going well. I wanted to reach out and again express our appreciation for the direction the agency is going with the Missouri Water Quality Standard. In his conversation with Sen. Blunt, Adm. Pruitt had suggested following up with David Ross once he was sworn-in. To that end, Senator Blunt would like to request meeting with Mr. Ross in the next few weeks to discuss the rule and the path forward. I know there may be some interest from other MO members as well and we're happy to coordinate if it makes things easier on your end. Give me a call if you'd like to discuss. Direct: 202-224-0527

Thanks,  
 Trey

**Time** 9:00 AM – 12:00 PM  
**Subject** Office of the Administrator's Mobile Device Refresh War Room  
**Location** WJCN 2432C  
**Importance** High  
**Show Time As** Busy  
 Hello—

You are receiving this meeting invitation because OEI is performing a phased “refreshing” of current iPhones to iPhone 7s and your phone is included in this phase. Your phone is being refreshed for two reason: to replace older iPhones with newer models that can be supported under Apple’s enterprise hardware and software program called Apple Care for Enterprise (ACE); and, to enroll all Agency mobile devices into Apple’s Device Enrollment Program (DEP), which will allow for better management of all iOS devices.

In order to “swap out” phones efficiently and with the least work day disruption possible, Nicole Smoot (eBusiness manager for the Office of the Administrator) and I (eBusiness manager for the Office of Policy) will be operating a “war room” for you to bring your current iPhone to and exchange it for a newer device. The war room will be located in William Jefferson Clinton North room 2432C and will be supported by both RTP via Skype, as well as an onsite ezTech technician. RTP and ezTech will assist with any technical or activation issues. The war room will operate from 9 am to noon on Thursday, February 22nd. In order to allow you maximum flexibility to work the phone exchange into your schedule, there are no set timeslots during the 3 hour period.

Important: Prior to arriving at the war room you must perform the following records management tasks:

1. - Save the text messages on your current phone by following these instructions: (b) (6)

2. - You must also save any photographs or videos by following the instructions on the attachment to this invitation entitled: “How to Save Photographs and Videos.”

Note: If you have technical issues regarding the saving of texts, photographs and/or videos please contact ezTech Customer Support for assistance at: Phone 1-866-411-4EPA (4372) or EZTech@epa.gov <mailto:EZTech@epa.gov> .

What to do once you arrive at the war room:

1. - Locate your name on the master sign in spreadsheet and sign in;
2. - You will be given two mobile device acknowledgement forms that have been filled out with the information from your old and new phones for you to sign;
3. - Once you have signed and submitted the forms, you will be issued your new phone and can begin the set up and activation process;
4. - Once the activation is complete, return your old device to either Nicole or me so it can be accounted for within the property inventory.

If you are unable to make it to the war room on your assigned day and you are in OP please contact me or if you are elsewhere in AO, please contact Nicole so arrangements can be made for you to so you can pick up your new device and return your old one. You are strongly encouraged to visit the war room to exchange your phone because tech support will be on hand in the event there are issues with the phone activation.

Thank you in advance for your cooperation with this effort. Please contact Nicole or me with any questions regarding this process.

|                     | See attachment provided by Sappi to guide this afternoon’s discussion. It includes their follow-up questions based on the EPA RFS URLs provided. |

I pasted the follow-up questions into their earlier list where appropriate below. I also added updates to the attendee list:

Attendee list:

Olivia Kurtz, Legislative Director, Senator Collins

Carol Woodcock, State Office Representative (Bangor office), Senator Collins

Beth Cormier, Vice President – R&D, Innovation Sappi North America and Michael Standel - Managing Director Sappi Westbrook

Adam Lachman, Director of Innovation & Economic Development and Gail Kezer, Regional Representative for Scarborough Office - Senator King's office

Staff from the office of Senator Collins have reached out on RFS. Sappi North America, a company that operates in her state, has questions about the program. They are considering investing in a biofuels facility and have a list of specific questions (see below).

EPA URLs, provided by OTAQ, were shared with Senator Collins' staff –

they are listed below as well.

You'll find that some of the questions are out of OTAQ's purview.

General:

\* What is the working definition of renewable biomass as it pertains to woody biomass from forestland. The non-federal land exception is clear; is non-plantation land an issue ?

#### 1) RFS Program – How it works

a. Program genesis and objectives: <https://www.epa.gov/renewable-fuel-standard-program>

b. General value chain and tracking components, how is revenue generated:

<https://www.epa.gov/renewable-fuel-standard-program/renewable-identification-numbers-rins-under-renewable-fuel-standard>

In the case of separated RIN – for a qualified pathway could Sappi Sell these ?

Utilizing the RIN buy/sell chart --- I would like to walk through an example case for Sappi – I have one laid out for the call

c. Established pathways and D-codes; what is involved in determining proper D-code and RIN. Also - what is involved in classifying a new pathway: <https://www.epa.gov/renewable-fuel-standard-program/renewable-identification-numbers-rins-under-renewable-fuel-standard> and <https://www.epa.gov/renewable-fuel-standard-program/fuel-pathways-under-renewable-fuel-standard>

Based on Sappi using biomass feedstock from Maine forests, utilizing a pyrolysis process to convert this biomass to a liquid fuel for use in one of 2 markets a) industrial heating oil or b) a blend stock for refineries. Based on the pathway documents I assume this would be a qualified pathway M- D3 or L –D7, is this correct?

What is involved in setting a new pathway and how long does it take ?

d. What are the CWC (cellulosic waiver credits) and how do they work: <https://www.epa.gov/fuels-registration-reporting-and-compliance-help/tutorial-cellulosic-waiver-credits-renewable-fuel>

Cellulosic Waiver credits – are these only available to the obligated party in the event that RIN's are not available to cover the blenders

obligated volume needs...or can waivers be purchased to cover obligation regardless of amount of product and RIN available from producer.

What is the price of a RIN compared to CWC ? Formula in statute is referenced.

e. EPA RFS standards and volume proposals – why do these matter, what do they affect: <https://www.epa.gov/renewable-fuel-standard-program/renewable-fuel-annual-standards>

Would like to understand how the volume obligation (RVO) is set for a potential user of biofuel – for a refinery producing 1 billion gals of fuel annually – what would the RVO be for that facility?

How is the Equivalence Value determined --- how may RIN's are assigned to a given gallon of biofuel ? Is it set by D-code or are other parameters involved.

Noticed that the 2018 proposed standards are lower for the cellulosic portion of Advanced biofuels vs. 2017 --- is this due to inadequate domestic supply ?

f. How are the RIN credits set and what impacts the credit level and volatility: <https://www.epa.gov/renewable-fuel-standard-program/renewable-identification-numbers-rins-under-renewable-fuel-standard> and <https://www.epa.gov/renewable-fuel-standard-program/compliance-overview-renewable-fuel-standard>

g. Historic D-3 pricing against crude – since program start

h. Does the RFS cover biomass to bio-gas and what might be different about this pathway and RIN system.:  
<https://www.epa.gov/renewable-fuel-standard-program/approved-pathways-renewable-fuel>

i. Historical analysis of the program – level of use and success metrics

j. Example(s) of use today representing a biomass to liquid Fuel RIN

## 2) Long Term Program Viability

a. Policy outlook for extension and what does the EPA volume target setting program end date of 2022 mean

b. What legislative initiatives could impact the continuation

c. What policy and economic factors will enable the continuation of the RFS program

d. What policy and economic factors will inhibit the continuation of the RFS program

### 3) Incentive Systems in Canada

k. What is the current bio-fuel incentive programs in Canada (if you have access to this), and what is the future outlook there.

Given Maine's close proximity to much of Canada, this is seen as a competitive factor for projects in Maine.

 Colleagues,

Since we haven't done one of these in a while and have lots of new staff, I thought it'd be nice to schedule some time to all get together. Please forward along to anyone I missed and hope to see many of you there.

Thanks!  
 Preston

## Friday, February 23, 2018

**Time** 9:30 AM – 1:00 PM

**Subject** CONFIRMED: EPA Budget Symposium

**Location** CAPITOL VISITOR CENTER

**Show Time As** Busy

TRAVEL UPDATE:

We will meet in the courtyard at 9:15 for travel to the hill. There will be two vans that can accommodate 21 people. I have not heard from all programs who will be riding in the vans, so please send me your count asap so that we are sure that we have enough space to accommodate folks.

We have arranged for a 12:30 pickup from the hill on Friday, Feb 23.  
Thanks,

UPDATE:

We have been confirmed for the budget briefing this Friday, February 23, @ 10am on the hill. OCIR is in the process of making transportation arrangements, but at this point in time, we have access to two vans that can hold 21 people max. We are checking on availability to have a digital presentation projected onscreen; I will follow up with you on that.

Travel logistics will be forthcoming. Please provide information on who the individuals in the van will be.

Colleagues,

As you aware, we have had to reschedule this event for Friday, February 23, 2018. I'm sending apologies in advance if the time and date is moved again. As of this day, the plan is that we will brief congressional staff, on the hill, at the Capitol Visitor Center. OCIR is working with hill staff to have a bicameral/bipartisan briefing – again with the intention of reducing the number of trips individual program offices will have to make to the hill to give budget briefings.

Thank you all for your patience as we work through the specifics. OCIR will be reaching out with additional information once we have confirmed logistics on the hill.

Kind Regards,

Subject: Ceremonial Swearing-In for Matt Leopold as EPA's General  
Counsel  
When: Monday, February 26, 2018 12:00 PM-1:30 PM (UTC-05:00)  
Eastern Time (US & Canada).  
Where: EPA Headquarters, U.S. EPA Rachel Carson Green Room (1200  
Pennsylvania Avenue NW)

Guests,

Please be advised of a slight time change for the Ceremonial Swearing-in of Matt Leopold as EPA's General Counsel on Monday, February 26, 2018. The ceremony is now scheduled for 12:00pm. in the EPA Headquarters, U.S. EPA Rachel Carson Green Room (1200 Pennsylvania Avenue NW). There will be a reception to follow.

Directions for Guests: EPA's address is 1200 Pennsylvania Avenue, NW. Please enter through the William Jefferson Clinton South building. If you are coming by taxi/vehicle, you want to be dropped off on 12th Street NW, between Pennsylvania and Constitution Avenue. The entrance is almost exactly halfway between the two avenues next to the Federal Triangle Metro sign and with the Trump Hotel across the street. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your right. This is the South Lobby entrance to the

William Jefferson Clinton building. If you are coming by Metro, exit at the Federal Triangle Metro station, go up the escalators and the South Lobby entrance will be on your left as you exit at the top of the escalators.

Once inside the building, security will prompt you to scan all items such as bags, coats etc.. Please let the guards know that you were instructed to call Carla Veney or Monique Patrick on 564-8040 or 564-8064 to escort you to Matt Leopold’s swearing in ceremony. Security will have the visitors passes for everyone.

Allow for 10-15 minutes to get through the process.

EPA Employees: Please bring your ID to show to security at the entrance to the Green Room.

Please rsvp to Carla Veney via [veney.carla@epa.gov](mailto:veney.carla@epa.gov) <mailto:veney.carla@epa.gov> by Feb. 22.

Thank you!

**Time** 11:00 AM – 12:00 PM  
**Subject** OEI Demo for New Hardware Refresh  
**Location** WJCN 2530 Conference Room  
**Attachments** AO HW Refresh Specs.pptx  
**Show Time As** Tentative  
 Good Morning,

If you are receiving this blind copied email, you are on the list for a laptop hardware refresh in April 2018 (dates will vary). Please see the attached documents to view the laptop's specs.

#### Background

OEI is planning to launch the first phase of the Annual Hardware Refresh beginning in February of 2018. The plan is to refresh approximately 25% of the inventory on an annual basis for a duration

of 4 years until we've reached 100%. In an effort to kick-off year one and efficiently meet this goal, AO needs your assistance in selecting staff to be refreshed. The refresh will continue throughout the year and conclude in September 2018 with regular deployments slated to begin in February 2018. The deployment process will include regular e-mail communications to notify/remind the selected staff of scheduling, safe-moves, and other pertinent information.

The attached spreadsheet contains data denoting each program office's total deployed devices and the FY18 refresh allocation quantities. Each program office has been enabled (see the dropdown selection) to select the staff member to be refreshed. In addition, the laptop type and warranty information has been provided to assist with your selections. OEI's recommendation is to target the end users with "Standard Laptops", all though the suggestion is ultimately the selection is at your discretion.

According to the office staff percentile (which is 25%), the attached section will show your refresh allotment.

What should you do?

\* Please email any specialize software that will need to be reinstalled. A list will be sent to OEI to keep the software inventory.

\* If you would like to attend an OEI demo (optional) of the new laptop, please come to conference room WJCN 2530 on the following dates:

Tuesday February 27, 2018 at 10:00 am to 12:00 pm.

Wednesday February 28th, 2018 at 10:00 am to 12:00 pm.

**Subject** Scoping Call with CBO on FIFRA ESA Bill Cost Estimate Questions  
**Location** Call (b) (6), code (b) (6)  
**Attachments** RYA18138.pdf  
**Show Time As** Busy  
Questions:

\* EPA currently reviews pesticides for their effects on endangered species. The bill would appear to impose a stricter, more protective standard under the ESA. Substantively, how would the bill alter the analysis EPA is required to undertake for any given review of a pesticide?

\* In terms of process, what new steps and workload would the bill impose that are new, relative to current law? Would the bill result in an increase or decrease in overall workload for the agency?

\* In terms of interagency coordination, would the legislation increase or decrease the workload on EPA (and DOI/DOC) relative to the agency's current coordination practices? It seems that the legislation is seeking to streamline the process, perhaps allowing for an approval to proceed even if, under current law, EPA would delay based on not having sufficient information?

\* When reviewing PRIA 4, EPA reported that, for pesticide registration activities (not including pesticide re-registration), the agency's activities in FY2017 required:

\* 72 FTEs (supported by registration fees) + 45 FTEs supported by appropriations = 117 FTEs

\* Expenditures were \$19M (funded by fees) plus \$9M (supported by appropriations) = \$28M budget in FY2017 for registration activities

\* Could EPA provide an update of what these FTE and fee/budget figures are for FY2018 and FY2019?

\* From whatever that total expenditure figure is for FY2018/2019, how much in additional FTE/funding above that level does EPA believe it would require in order to carry out the new requirements that this legislation would impose (not including the Safe Harbor and Negotiation provisions below)?

o What specifically are the main components of that increase (if any)?

\* Additional science, new models

\* Cost of processing data

- \* Interagency coordination

- \* Expedited work to meet deadlines

- \* Work plan and report to Congress

- o Please indicate the additional FTE/\$ necessary for each year from 2018 – 2023.

- \* EPA's existing authority to charge fees for pesticide registration would allow the agency to recoup those additional costs, correct? (Without the need for subsequent legislation authorizing a fee increase?).

- \* The legislation would amend the Pesticide Registration section of FIFRA. It does not touch the Pesticide Re-Registration and Expedited Processing Fund. Does that mean that there would be no effect on Reregistration workload? If there is an effect, please provide the same information regarding necessary FTE/\$ costs that would be necessary for Reregistration activities.

#### Safe Harbor provision

The bill would create legal liability protection for entities that, through the use of pesticides that have been registered and approved with a positive ESA determination from EPA, incidentally take (kill) an endangered species.

#### Questions:

- \* How much penalty revenue does EPA collect per year from entities that incidentally take endangered/threatened species through the use of pesticides that are lawfully registered? From use of pesticides that are unlawfully used?

- \* Does EPA expect that this language would result in a reduction in penalties by no longer being able to fine those entities? If it's difficult to quantify, can EPA say whether the effect is likely to be greater or less than \$500,000/year?

#### Negotiation of Settlements

This section also could reduce federal revenues if it results in pending

or recently settled ESA settlements being lower than they would have been under current law--perhaps eliminating an award that otherwise would have been issued against an entity.

\* Does EPA have any estimate of the \$ value of ESA-related pesticide settlements that are currently being negotiated or recently settled that would be affected by this language? Does EPA have such information for the past 5 years (i.e., what is a typical level of settlements over the past 5 years?).

changes

Hi Christian and Ed,

I wanted to follow up with you guys from EPA's budget symposium  
last Friday. I was glad to finally have a chance to meet Henry and to  
hear about some of the management changes that are underway and  
that are being planned.

I mentioned to Henry on Friday that I wanted to invite him to come  
and brief the committee in more detail about the changes that are  
underway. Can you please help set that up, preferably for some time  
next week? We'll take care of securing a room once we have a time  
nailed down.

Thanks,

Kusai

Re: Discussion of City's Biogas Project – a partnership with National Beef.

Background: Biogas is a methane-based by-product produced by the wastewater treatment lagoons south of Dodge City. According to the city's Director of Engineering Services, the gas produced is currently burned off. Biogas is a process where the gas can be cleaned and then inserted into a natural gas line. The Director has noted that the city is fortunate that the wastewater lagoons are near several national and regional natural gas lines, which will allow the city to sell the cleaned gas. The city will be able to see the clean biogas for use in converted vehicles, and hopes to receive environmental credits.

Subject Senate Ag TA on FIFRA ESA
Location call (b) (6), code (b) (6)
Show Time As Busy
 A couple questions on the FIFRA language for EPA.

Is there a way to codify the original counterpart regulations, ideally including the portion struck down, that would technically leave the interagency ESA consultation as is?

Is there any stay on pending litigation that would be helpful for a short period of time? How could we be most useful to EPA OGC in a stand alone provision meant help the agency?

It is the Committee's intent that this and any related communications to the above request will be treated by EPA as Congressional records, and that all of these records remain under the Committee's control.

Staffer requested the April 10th time, looks like people were open.

Plan for a quick 15 min internal EPA pre-call right before the call with the outside folks.

UPDATE: The company provided three attachments, excerpts from studies, now attached here. I'll be calling in from home, but the conference room North 3428 is booked for folks to congregate at HQ if they want.

Agenda of call with company and staffers at 3:45pm:

- listen to what the company has to say
- clarify anything we stated in our response letter

Attached is the incoming letter from the company, which also should have come directly to EPA, and the transmittal letter from Rep. Poliquin, and our final response letter to Sen. Collins (almost verbatim

what we sent to Rep. Poliquin).

NEW ATTACHMENTS FROM MAINE ENERGY SYSTEMS:

...360.pdf is from a Kunde study published in 2013

...200.pdf is from a Brookhaven National Laboratory publication by B. Thomas in August 2017.

...580.pdf is from an ÖkoFEN presentation in 2017

UPDATE: I'd also like to use this meeting to discuss the new letter from Gowdy (attached) regarding security, Morocco, and Italy, and requesting transcribed interviews with five employees.

Call-In: (b) (6)

Extension: (b) (6)

Code: (b) (6)

Hi all – This is to discuss our response to the attached letter to Carper, Cummings, and others requesting documents on a variety of recent topics. We have active FOIA requests on nearly all of the topics, so our response could just note that we are searching for all of the requested documents and will deliver when available. All FOIA numbers cited below are preceded by EPA-HQ-2018-. The numbers listed are not necessarily exhaustive for issues where we have received many FOIA requests.

1. Security spending – Some docs have already been released by Melissa Shapiro for FOIA. We have these prepared to go out in response to a Udall letter.
2. Sequoia security – We are dealing with a letter on this topic. FOIA contact: Victor Farren (006270, 002857)
3. Italy security – FOIA contact: Fred No (004377, 000613)
4. Administrator office spending – Covered by (1)
5. Soundproof Booth – We have a letter from Udall on this topic. FOIA contact: Jonathan Newton (000061)
6. Sirens – FOIA Contact: Judith Lewis (006413)
7. Millan Hupp housing search – FOIA Contact: AO, unassigned (006300)
8. Samantha Dravis absence – FOIA Contact: AO, unassigned (006435, 006380, 006377)
9. Private Jet – No FOIA requests for “jet”
10. Calendar for Rome trip – Already released to EPW?
11. Dravis travel in Morocco – FOIA contact: AO, unassigned (006061)
12. Travel to Oklahoma – Would be covered by some vouchers and receipts we have collected; I could not find a FOIA request due to the breadth of this item
13. Justification of first class travel – Overlaps with Gowdy request (memo itself). FOIA contact: Isabelle Pettiford (004594)
14. Per diem limit – Partially covered by collected receipts with per diem waivers. No FOIA requests for “per diem” or “reimburse”
15. Reassignment of Chmielewski and Allen – FOIA contact: Judith Lewis (006331)
16. Employment status of Chmielewski – Covered by (15)
17. Raises for Hupp and Greenwalt – We have another letter on this topic. FOIA contact: Judith Lewis (006418, 006363)
18. Condo lease – We have other letters on this topic. FOIA contact: AO, unassigned (006145)
19. Hotel rooms – Partially covered by collected receipts. FOIA contact – AO, unassigned (006152 – only covers period since 1/1/18)

Please dial: (b) (6); Conference ID: (b) (6)

Senate Agriculture Committee staff would like a conference call on S.1207, the FUELS Act. Specifically, they would like to get a better understanding of the practical impact of SPCC regulations today, who's impacted, and what are some of the impacts if any of the thresholds were to be adjusted.

This bill amends the Water Resources Reform and Development Act of 2014 to require the Environmental Protection Agency, in

implementing the Spill Prevention, Control, and Countermeasure rule (concerning oil pollution prevention) with respect to any farm, to:

- * require certification by a professional engineer for a farm with an aggregate aboveground storage capacity of more than 42,000 gallons (currently, 20,000 gallons);
- * allow self-certification by the owner or operator of a farm with an aggregate aboveground storage capacity of more than 10,000 gallons but less than 42,000 gallons (currently, of less than 20,000 gallons and more than the lesser of 6,000 gallons and the adjustment quantity established under such Act); and
- * not require compliance with the rule by any farm with an aggregate aboveground storage capacity of 10,000 gallons or less (currently, of more than 2,500 gallons and less than the lesser of 6,000 gallons and such adjustment quantity).

The rule shall apply to aboveground storage containers at farms on a separate parcel that have an individual capacity of not more than 1,320 gallons (currently, 1,000 gallons) and an aggregate capacity of not more than 3,000 gallons (currently, 2,500 gallons).

Subject: Constituent Meeting Request

Hi Christian,

Hope you are doing well. OKC Chamber will be in town next week to include some people from the city's utilities office. The former site of Eagle Industries in OKC was recently named to the Superfund national priorities list. The residents in this area are on well water that is/could be contaminated and the city needs to run a water line out to that area but can't finance it based on their bylaws/charter(?) because it would be cost-prohibitive to the residents (~1K/residence).

They are looking to speak with the Superfund office (and maybe the Water office) to talk about options and the Superfund process in general.

I am waiting further information on their availability but wanted to get Tuesday afternoon (4/24) through Thursday around lunch (4/26) on your radar to see if there are some windows of time on those days that might work. Let me know if you have any questions.

Sincerely,

Jennie H. Wright

Show Time As Busy

On May 2nd and 3rd we are hosting the regional public affairs directors and congressional liaisons, along with the HQ program office communications directors, for the National PAD/RCL/Communications Directors meeting. On Wednesday May 2nd from 1:15 to 2:00pm, we have reserved time at the beginning of the meeting for all of you to come meet the HQ and regional directors and the regional congressional liaisons and introduce yourselves. Deputy Administrator Wheeler will be joining at 1:30pm, as well, to say hello to everyone. You're welcome to attend any and/or all of the meeting. The agenda is attached for your convenience.

We hope that you will be able to join us and say hello to everyone.

Hi Cathy - the draft release is attached (the tribe is sending me a quote by COB).

Twitter:

.@EPA <mailto:..@EPA> awards \$62,655 to Oneida Nation of Wisconsin for water quality protection. [link to release]
@OneidaNationWI @EPAallnations

Facebook:

@USEPA awards \$62,655 to the Oneida Nation of Wisconsin to continue its efforts to prevent and control surface and groundwater pollution. The funding is awarded under Sections 106 and 319 of the Clean Water Act, which authorizes EPA to provide grant money to tribes to restore and protect waters in Indian country. The funding is the first installment of the tribe's Fiscal Year 2018 grant award, which will total just over \$175,000. [Link to release] @OneidaNationWI

Kayla in Sen. Collins' office is interested in (and Elizabeth from EPW wants to listen in, too):

- getting up to speed generally about mercury air and water monitoring,
- more specifically what we at EPA have been doing on mercury monitoring since the last time her boss introduced her bill to establish a comprehensive mercury monitoring network, and
- international transport of mercury (for example the contribution of coal plants in China).

Attached are two 3-pagers that I sent to the staffers in advance of our call: one on the national air deposition program (NADP), and one about the Asia-Pacific mercury monitoring network (APMMN).

As far as I can tell, Sen. Collins last introduced her Comprehensive National Mercury Monitoring Act in the 113th Congress (2013-2014), when it was S.1528 (text attached). Here's the CRS bill summary:

Introduced in Senate (09/19/2013)

Comprehensive National Mercury Monitoring Act - Directs the Administrator of the Environmental Protection Agency (EPA) to establish a national mercury monitoring program that monitors: (1) long-term changes in mercury levels and important ancillary measures in the air; and (2) long-term changes in mercury and methyl mercury levels and important ancillary measures in water and soil or sediments and in marine, freshwater, and terrestrial organisms.

Requires the program to be compatible with similar international efforts, including the Global Mercury Observation System and the Global Earth Observation System of Systems.

Requires the Administrator to: (1) select multiple monitoring sites representing multiple ecoregions that include national parks, wildlife refuges, National Estuarine Research Reserve units, and other sensitive ecological areas in which substantive changes are expected from reductions in domestic mercury emissions; (2) establish and publish standardized measurement protocols for the program; and (3) establish a centralized database for environmental mercury data.

Requires the Administrator to: (1) establish a Mercury Monitoring Advisory Committee to advise the Administrator on the establishment, site selection, measurement, recording protocols, and operation of the program; (2) report on the program every two years and include, every four years, an assessment of mercury deposition rates that need to be achieved in order to prevent adverse human and ecological effects; and (3) make all data obtained under this Act available to the public through a dedicated website and on written request.

The U.S. Environmental Protection Agency has awarded a Great Lakes Restoration Initiative grant of \$1,679,104 to the Wisconsin Department of Natural Resources to increase its efforts to protect and restore Wisconsin's Great Lakes coastal wetlands. Work will focus on the shoreline of Lake Michigan.

“These grants are crucial to protecting our Lake Michigan shoreline,” said Regional Administrator Secretary Cathy Stepp. “Projects funded by today’s grant will enhance Wisconsin’s coastal wetlands so that they may continue to be enjoyed by communities and visitors for fishing, hunting and recreation.” [GreatLakes wetland & WI coastal wetland] [link to release]

Milwaukee Journal Sentinel (Lee Bergquist)

Wisconsin Public Radio (Danielle Kaeding)

AP – Madison (Todd Richmond)

Kenosha News (Mike Larsen)

Lake County Sun (Joe Biesk)

“The Great Lakes and the beauty that surrounds them are a part of our state’s heritage and economic strength,” said Governor Scott Walker. “As a result of this funding, our state will be able to increase protection and restoration efforts for critical habitat that benefit fish and wildlife communities and provide valuable public recreational opportunities. These efforts will help maintain our lakes and ensure they are around for future generations to value and appreciate as we do.”

WDNR 2018 Protection and Restoration of Wisconsin's Great Lakes Coastal Wetlands

Wisconsin Department of Natural Resources (WDNR) will administer 6 projects that will: 1) protect, restore or enhance 1,223 acres of coastal wetland habitat; 2) protect 463 acres of other habitats in the Great Lakes basin; 3) restore or enhance 6 miles of Great Lakes shoreline and riparian corridors; and 4) reopen 1.5 miles of Great Lakes tributaries. Proposed work includes restoration of hydrological conditions, re-establishment of native vegetation, and protection through acquisition of existing high-quality habitat sites.

Coalition to Restore Coastal Louisiana

Gulf of Mexico Program

This action approves an award in the amount of \$285,744 to Coalition to Restore Coastal Louisiana. The funds will help restore or enhance coastal swamp forest habitat near the city of New Orleans and provide volunteer opportunities that are accessible and accommodating to urban communities. This project will engage approximately 300 volunteers in adding 5,000 or more native swamp forest trees to restore or enhance at least 25 acres of cypress-tupelo swamp habitat.

For Immediate Release: June 13, 2018

 perezsuillivan.margot@epa.gov, 415-947-4149 University of Arizona
 receives \$91,000 grant to create Santa Cruz County's first compost
 center

SAN FRANCISCO –Today, the University of Arizona and Santa Cruz County launched the county's first compost center at Rio Rico High School in Rio Rico, Ariz. The center's creation was supported through a \$91,519 North American Development Bank grant in partnership with the U.S. Environmental Protection Agency (EPA).

"This center will create valuable compost from discarded produce," said EPA Pacific Southwest Regional Administrator Mike Stoker. "Instead of taking up space in a landfill, the University of Arizona will feed people, reduce waste and teach high school students about zero waste practices."

"This project fulfills the mission of the UA Cooperative Extension Compost Cats program in creating new partnerships, providing jobs and job training for local youth, and transforming would-be waste into valuable products that can be reinvested in our agricultural soils," said UA Compost Cats Director Chester F. Phillips.

The University of Arizona Cooperative Extension's new center will compost about 3,000 tons of produce each year. That compost will be used on farms, gardens, and rangelands, benefiting the environment and advancing agricultural production across the region. The center will be operated by the University of Arizona "Compost Cats," who will train and employ local students from Rio Rico High School, Santa Cruz County Community College, and University of Arizona South students.

The new compost center also features a refrigerated semi-trailer, which increases the center's capacity to divert usable excess produce to the Community Food Bank of Southern Arizona.

More than two million tons of produce cross the Mariposa-Nogales Port of Entry, one of the busiest land crossings along the US-Mexico border. Though the produce industry delivers nearly 99 percent of produce to market in good condition, food waste remains challenge,

with over 20 tons sent to Southern Arizona landfills daily.

Along with the university and county, the center was developed in cooperation with the Santa Cruz Valley Unified School District No. 35, the Fresh Produce Association of the Americas, Community Food Bank of Southern Arizona, and Unisource Energy Services.

Region 9 is preparing a press release timed to an event June 13th announcing a \$90K grant award to the University of AZ Compost Cats program.

You can put this on your grants calendar and we hope to send you a draft early next week. We're working on getting a quote from the Univ. of Arizona.

Here's some info:

Event: On June 13, EPA will give remarks in Rio Rico, Arizona to celebrate the grant award to the University of Arizona Cooperative Extension (UA) Compost Cats. The grantee is leading the development of the Santa Cruz County (SCC) Compost Center to compost wasted produce, that otherwise ends up at the Rio Rico Landfill. The project provides environmental and economic benefits to the border region.

Background: The UA's Compost Cats were selected to receive a \$91,519 North American Development Bank grant to advance Border 2020 Goal 3. Currently, wasted produce from Mexican agricultural farms is imported to the US and transferred to warehouses for distribution to markets across the United States. In the process, wasted produce generated during transport is disposed at the Rio Rico Landfill. The produce industry has been exploring disposal alternatives in part because the Rio Rico Landfill is expected to close in a few years, leaving potentially more costly alternatives.

Time 10:00 AM – 12:30 PM
Subject Nomination Mock Hearing
Location 1152 WJC East Building
Show Time As Busy

On June 15th we will be having a mock hearing for Peter Wright (Nominee for OLEM) and Chad McIntosh (Nominee for OITA) in the hearing room in east building. As in the past with nominees we would like to have our political team play the role of Senators for the hearing and provide feedback after, this will enable the nominees to have a real life experience so they know what to expect on the hearing date, which will be June 20th.

Binders with questions and background research were delivered to your office on June 13th

Please hold Friday, June 15th from 10 am-12:30pm on your calendar if possible, and below I have made a list of who will play which Senator. If you cannot attend please let me know as soon as possible so we can find a replacement. Thank you!

Bay Mills Indian Community

BMIC Surface Water Quality Monitoring and NPS Pollution Restoration
and Community Ed Program

This is a Performance Partnership Grant (PPG) to the Bay Mills Indian
Community (BMIC) consisting of funds for the Clean Water Act (CWA)
Section 106 and Section 319. This award will enable BMIC to build
tribal environmental capacity, and implement the water resource and
nonpoint source programs. These activities will protect human health
and the environment.

 Subject: RE: Isakson inquiry - Part 80 approval process?

Hey there,

After a couple of attempts at getting specific questions from the Isakson staffer, he sent the attached PPT and the following blurb. We might just need to give him a general overview to explain the process. Please let me know what you think.

Enysn has been working with EPA and are asking us to reach out on their behalf so that they can begin conducting business in Vienna, GA. As I understand things, they are good to go with production, but are waiting for a partner oil refinery in California to receive approval to generate RINS. I just wanted to find out why this partnership is necessary and why they can't begin work without the approval of this California oil refinery. This doesn't really have to be a technical discussion. Apologies for the delay. I was in touch with Mandy Gunasekara and she told me that someone directly involved with the project would reach out, but that may not happen in time for my deadline.

EPA provides \$300,000 to Metroparks Toledo to restore wet prairie in Maumee River AOC

CHICAGO – (xxxx) The U.S. Environmental Protection Agency (EPA) has awarded \$300,000 to the Metropolitan Park District of the Toledo Area to restore 32 acres of wet prairie within the Maumee River Area of Concern.

“EPA is proud to invest in a project that will restore important habitat – benefitting Toledo families and communities,” said Regional Administrator and Great Lakes National Program Manager Cathy Stepp. “Today’s grant illustrates the value of partnerships in restoring the Great Lakes.”

“Creating experiences that connect people to nature is an important part of the work we do as conservationists,” said Dave Zenk, executive director of Metroparks Toledo. “This acquisition and restoration project involves properties within the Oak Openings Corridor, one of the most diverse ecoregions in Ohio. The corridor connects five of our Metroparks as well as three state nature preserves, providing habitat for wildlife and access for people.”

Through this project, Metroparks Toledo will acquire property in the designated Irwin Wet Prairie Priority Conservation Area in the Oak Openings Region and implement habitat enhancement activities, including site cleanup and invasive species removal. Afterwards, the tracts will be permanently protected by Metroparks Toledo and managed to maintain high-quality oak openings, benefitting the species that rely on this habitat.

This funding was made available through the Great Lakes Restoration Initiative. The GLRI was launched in 2010 to accelerate efforts to protect and restore the Great Lakes. EPA has funded more than 900 projects to address GLRI’s highest priorities: cleaning up highly-contaminated “areas of concern,” reducing nutrient runoff, combating invasive species and restoring habitat.

A portion of the Maumee River watershed was designated as an Area of Concern under the 1987 Great Lakes Water Quality Agreement, with environmental problems primarily due to sediment contamination and agricultural runoff.

Hi Tamika,

Troy Lyons (AA – OCIR) and DA Wheeler spoke about scheduling a “Hill Day” event where the DA would be able to go to the hill and speak to a number of different members/offices. I was wondering if you could give me some potential dates and times where we might be able to hold 3 or so hours on the DA’s calendar for meetings and travel to and from the Hill?

Thanks,

Christian Rodrick

Per your request, below and attached is the draft Hill Day schedule for DA Wheeler on June 27th. As Michael and Tamika are aware, it is still evolving a bit as we are trying to see if we can fit Ranking Member Pallone and Congressman Johnson into the day, however it is looking like a pretty good afternoon at the moment.

2:00PM – Ranking Member Paul Tonko; 2463 RHOB

2:30PM – Chairman Ken Calvert; 2205 RHOB

3:00PM – Chairman Mike Conaway; 2430 RHOB

3:30PM – Rep. Richard Hudson; 2356 RHOB

For your awareness, I am looking to book end the meetings w/ Rep Bill Johnson at 1:30 and Ranking Member Pallone at 4:00, if possible.

Subject BBQ with Demond

Location Pantry

Show Time As Tentative

Hi Everyone,

We all like Demond. And Demond (b) (6). So in celebration of his time here in OCIR and to wish him well in OCFO, please join Demond in the pantry for some home-smoked BBQ. This is very informal and

casual so please stop even if you aren't a bbq fan. Because we are all a Demond fan. BYOD.

Best,

Jack

Molly,

Would 2:00 PM on Tuesday still work for the chairman? If so I can lock
that in. What is the best number for the Administrator to call? Or do
you need us to provide a call in number?

Attachments Collins - Clean Cookstoves and Fuels Support Act.pdf
Household Energy Briefing for Sen Collins' Staff.pptx

Show Time As Busy

Background:

We got a request from Kayla in Sen. Collins' office for a call and/or update on EPA's efforts internationally on cookstoves, particularly since 2015 when Sen. Collins last introduced her bill on the topic (Clean Cookstoves and Fuels Support Act, attached). (b) (5)

Here is the request in the staffer's own words:

"I was hoping to chat with some experts over at EPA on the attached legislation regarding clean cookstoves that was last introduced in 2015. From what I understand, Jacob Moss was heading up this initiative for a while over at the State Department– is he still at the EPA? We were hoping to get additional information on what EPA is currently pursuing in this area and what has changed since Sen. Collins last introduced this bill in 2015."

Also, she notes in follow-up that:

"I'm currently working with the Senate Foreign Relations Committee on changes to the text of the legislation, so I might come back in a week or two and ask for technical assistance, but right now we're just

looking for more information.”

DRAFT – PWSS GRANT AWARD (AK: \$2.6m, WA \$2.7mil, OR: \$1.7mil, ID: \$1.2mil)

EPA awards \$2.7 million grant to the Washington Department of Health to Protect Public Drinking Water Systems

(Seattle – July X, 2018) The U.S. Environmental Protection Agency (EPA) has awarded the Washington Department of Health a \$2,731,000 Public Water System Supervision (PWSS) grant to protect 4,384 public water systems serving more than 7.8 million Washington residents.

"It's hard to get more basic or important than safe tap water," said EPA Regional Administrator Chris Hladick. "Protecting tap water is a cornerstone of the clean water partnership between EPA and our partners at state and tribal health agencies. Our program helps ensure that when water system customers turn on their taps, they get clean, safe water they can trust."

With this grant the Washington Department of Health will conduct regular sanitary surveys of public water systems; provide technical assistance to public water system managers and operators; ensure public water systems regularly inform their consumers about their system's water quality; and administer an enforcement program that ensures public water systems comply with all applicable requirements.

Background

Since 1976, EPA has received an annual Congressional appropriation – under the Safe Drinking Water Act – to assist states, territories, and tribes in carrying out their Public Water System Supervision programs.

All entities that have been delegated primary enforcement responsibility by EPA for the Public Water System Supervision (PWSS) grant program are eligible to receive grant funding. PWSS grants help eligible states, territories, and tribes develop and implement a PWSS

program, enforce SDWA requirements, and ensure that water systems protect public health by complying with the National Primary Drinking Water Regulations. When systems are found to be deficient, or otherwise at risk, assistance is available to help ensure systems are operating properly.

Molly made a few small edits—release attached.

Here's my suggestion:

Molly,

I understand that the Air Trends Report is going out on July 30. The NY grant could be the first one out of the gate—it's the largest \$7 million.

National Air Toxics Trends Station (NATTS) Network

The project will conduct air toxics monitoring to measure volatile organic compounds, semi-volatiles, carbonyls and metals. This project represents a continuation of a national ongoing effort to characterize air toxics and assess trends in ambient levels by conducting primary and collocated monitoring in urban and rural areas. Data resulting from the project will be submitted into the Air Quality System database and will be used to measure progress in meeting goals for reducing air toxics emissions and associated health risks.

Subject Congressional Staff Briefing on Safer Affordable Fuel-Efficient Vehicles Rule

Location 2123 Rayburn House Office Building

Show Time As Busy

Briefers:

EPA: Bill Wehrum AA, OAR/Mandy Gunasekara, PDAA, OAR

NHTSA: James Owens, Deputy General Counsel (DOT)

Invite sent to Capitol Hill Staff:

All,

As you are likely aware, the US Environmental Protection Agency (EPA) and the US Department of Transportation (DOT) recently proposed the Safer Affordable Fuel-Efficient Vehicles Rule, which establishes new Corporate Average Fuel Economy (CAFE) and tailpipe greenhouse gas emissions standards for passenger cars and light trucks covering model years 2021 through 2026. I am writing today to invite you to attend a bicameral, bipartisan briefing by EPA and DOT officials on the recent proposal.

EPA and DOT officials will brief interested congressional committee staff on Friday, August 10, at 11:00AM. In order to accommodate all interested committee staff, the briefing will take place in the House Energy and Commerce Committee Room in 2123 Rayburn House Office Building. Please feel free to forward this invitation on to appropriate individuals on your staff who might not have received it.

We look forward to speaking with you and answering your questions on this issue. Please RSVP to myself and Brian Barnard (Brian.Barnard@dot.gov <mailto:Brian.Barnard@dot.gov>) by Thursday at noon so we are able to ensure an accurate headcount.

	Subject	Sen Collins inquiry- Ensyn biocrude co-processing facility	
	Location	3428 North; (b) (6); Conf ID: (b) (6)	
	Show Time As	Busy	
		Staff from the office of Senator Collins have reached out about the possibility of a Ensyn biocrude co-processing facility in the state of Maine. The staffer wrote: They have a business based on a technology that converts solid wood to a "liquid wood" feedstock. Ensyn has been working with the petroleum industry to develop a biocrude co-processing business where approximately 5% biocrude is fed with 95% petroleum into existing refinery equipment to produce renewable cellulosic diesel	

and gasoline.

The staffer also provided a 2011 letter signed by Paul A. I'll update the invite with that letter for those of you that don't already have the letter from a previous email from me or the Collins staffer.

After talking to the staffer, I understand they don't have any very specific questions. Rather, they want understand more about the registration process and, in particular, voice the Senator's support for the Ensyn project. Let's provide some context to the 2011 letter and explain a couple of the hurdles that Ensyn faces. This staffer seems to be less familiar with the issue than the Isakson staffer, but has an awareness of the qualifying biomass issue and is very interested in bringing production jobs to Maine.

 Hi folks,

Here's a calendar invitation for a call with Hill staff on the UCMR provisions of H.R. 3387. I've attached that section to this calendar invite.

The actual call is at 11, but I set aside 10:30-11 for any prep we might need. Let's chat at 10:30 and then we'll have a bit of time between

then and 11. (I also don't expect the actual Hill call to take more than 30 minutes, but I'm reserving a full hour just in case.)

Thanks,
Matt

Subject: TA Call with House & Senate : Regarding Drinking Water Bill
Provisions - WRDA Negotiations
Importance: High

Hi All,

We are in the midst of WRDA negotiations and we would like to have a call with the EPA water office to have some TA on a provision that the House E&C Committee has in their Drinking Water System Improvement Act. The Senate has some questions on the provision is in HR 3387 (attached), Section 9 entitled, Monitoring for Unregulated Contaminants. We have questions regarding what affects these changes would have to existing practices and how EPA creates/calculates representative sampling for those smaller size communities.

We would need this call to happen early next week, ideally Monday or Tuesday before 2pm. Please let me know if this works for ya'll or if you have further questions. Thanks so much.

Very Best,

Elizabeth "Lizzy" Olsen, J.D.

Show Time As Tentative
Hi team – here's a calendar invite for our discussion with Elizabeth Fox and Jon Pawlow of T&I majority. Below is the email chain from earlier today, and I've also reattached the relevant docs on this topic since this morning, including the two drafts of the bill we've received and the recycled TA documents we provided earlier in the week.

Best,

Matt

Subject: Update: T&I call re SRF WIN at 1, pre-chat at 12:30, updated text attached

Attachments: New WIFIA text from T&I maj - Aug 28.docx; Senate WIFIA Provisions 2018.docx

Hi Erika and team,

Thanks for the quick response. Elizabeth and Jon would like to do 1 pm, so I'll send a calendar invite shortly, and will also propose that we do an internal pre-call discussion at 12:30 to make sure we're all on the same page.

In the meantime, Elizabeth from T&I has since sent me updated (I think) text of the current WIFIA section of the bill. The first attachment is what she just sent me, which I've added to a Word doc because I presume that's easier to digest.

I've also re-attached the version I sent earlier today. Because I'm in another meeting I haven't had the chance to do a doc compare of these two versions, but certainly think that would be helpful if someone on the team has the chance to do that.

More soon, and thanks for everyone's understanding amidst the quick turnaround,

Matt

Subject: T&I majority interested in a call re: SRF WIN around noon or 1
today
Importance: High

Hi WIFIA team,

Hope your steamy Tuesday is going well.

As you may know, House and Senate are working hard to try to resolve differences on their water infrastructure legislation, and we've gotten a flurry of recent requests as a result of those discussions.

T&I majority (Elizabeth Fox) reached out this morning asking to see if we could do a call at noon or 1 pm today to discuss the current version of the "SRF WIN" provisions of the infrastructure bill. Attached is what I understand are the current WIFIA-focused sections of the bill

– with Sec. 5036 being the SRF WIN piece. Elizabeth and Jon Pawlow are interested in our thoughts on the current version, and may also send more focused thoughts to guide our review.

For additional context, Elizabeth also asked yesterday whether we had existing TA on the as-passed version of SRF WIN that was included in S. 2800 (the Senate's water infrastructure bill). I told her we did not, but that we had worked up some analyses or TA on earlier versions of the bill, and I then sent those docs along with appropriate caveats. Those docs are attached, which should look at least distantly familiar to the WIFIA team.

Let me know if we'd be able to pull together an effective group at either noon or 1 today to discuss this. I know this is a remarkably quick turnaround, but that may end up being a familiar situation in the next few days as the House-Senate conversations continue.

Thanks,
Matt

Subject: Another WIFIA T&I TA request, this time re: Reclamation -- to
OCIR by COB Tuesday

Hi WIFIA team,

Hope your Wednesdays are going well.

T&I majority staff followed up with us yesterday asking for some additional technical assistance on WIFIA, this time asking us to take a look at some recent proposals floating around that would expand WIFIA to include Bureau of Reclamation-relevant projects.

We're being asked for TA on two different pieces of language: a very short Senate provision (under discussion for including in the Senate WRDA bill, S. 2800) and a much longer House provision (previously offered as an amendment to the House WRDA bill, H.R. 8).

Attached are two Word files that present the Senate and the House provisions as both bill text and as Track Changes to the WIFIA statute. To avoid confusing the two sets of text, I've separated the House and Senate text into separate files. Each file presents the text as bill text and then as statutory Track Changes.

In addition, T&I has two related questions that they'd like us to answer – the first that might fit within the bill-specific TA we provide (or as a stand-alone answer), and the second that is definitely a stand-alone answer. Let me know if question #2 is more easily answered with a call, or if we'd want to send a quick narrative response and then do a call.

Questions are:

1 We are interested in how each of these would execute and what the impacts to EPA would be as both versions have Interior using the EPA for loan execution. Is EPA the proper entity for Interior? Or would one of the other Federal Crediting programs be a better fit?

2 We had a very good briefing with the Corps about how you have been working with them and I'm wondering if you are doing the same with Interior. If so what can you share about that effort?

T&I would like our response by mid-week next week, so please send me draft TA by COB Tuesday. In the meantime, let me know if you have any questions, and thanks as always for your help.

Best,

Matt
