Miss Nancy F. Buck
Route 6, Box 6
Mount Airy, N. C. 27030

Dear Miss Buck:

Though I promised in previous correspondence to have the paint chips which you sent me analyzed for lead content, I find that I cannot do so. The reason for this is the potential legal difficulties which might possibly arise if we were to make the analysis. Therefore, I suggest that you have these chips analyzed at an independent laboratory. The following two laboratories are recommended, though there may be others which are equally competent:

Ledeoux Laboratory
359 Alfred Avenue
Teaneck, New Jersey Tel. 201/837-7160

U. S. Testing Co. Inc.
1415 Park Avenue
Hoboken, New Jersey Tel. 201/792-2400

Again, I am sorry that I could not do as I promised, but I hope that you understand the situation.

Sincerely,

J. F. Cole, Sc. D.
Manager, Environmental Health
