

INDUSTRIAL FURNACE ENCLOSURES

July 17, 1950

Eagle-Picher Sales Company
900 American Building
Cincinnati 1, Ohio

Attention: Mr. F. E. Watson

Subject: Eagle-Picher #33 Plastic Insulation

Dear Frank:

We have had an inquiry for some of the above material and we find absolutely nothing on our records advising us as to what this material is nor its price.

We believe that this is a Vermiculite base plastic insulation but of this we are not sure.

We would appreciate you sending us data and prices on this material.

In looking through the file we note that we do not have a complete catalog of your materials in good shape. The one we do have is all cut up and marked up. Therefore, we would appreciate you sending us several copies of your catalog listing your entire line. Thank you very much.

Yours very truly,

BIGELOW-LIPTAK CORPORATION
