Mr. James D. Wright,
District Sales Manager
MONSANTO CHEMICAL COMPANY
20 Cedar Boulevard
Pittsburgh 28, Pennsylvania

Subject: Disposal of Pydraul Fluids

Dear Mr. Wright:

In the advent that Pydraul AC or Pydraul 200 is accepted for use on our CP-R-IX locomotive air compressor, the question of safely disposing of the fluid will arise.

Please advise on methods of disposal of the above fluids and also what damage would occur to wildlife if used Pydraul fluids were accidently spilled into game bearing waters.

Very truly yours,

CHICAGO PNEUMATIC TOOL COMPANY
