## C\_TEC Announces New Working Group Co-Chairs

**WASHINGTON, D.C.** — The U.S. Chamber of Commerce Technology Engagement Center (C\_TEC) today announced the co-chairs for its three working groups: Autonomous Vehicles (AV), New Economy, and Unmanned Aerial System (UAS); as well as the Telecommunications & E-Commerce Policy Committee. The working groups and policy committee lead campaigns designed to educate policymakers, regulators, the business community, and the public on benefits of the different technologies across the economy. Each working group meets regularly throughout the year.

“The way companies operate and serve their customers will continue to change with every new innovation,” said Tim Day, senior vice president of C\_TEC. “With these rapid changes, it’s as important as ever to seek diverse input from business leaders across industries. I’m grateful to each of the co-chairs for their commitment to working with C\_TEC to promote American innovation and ingenuity.”

The C\_TEC working group and committee co-chairs are:

**Autonomous Vehicles**

Marjorie Dickman, Intel  
Johnny Morris, Embark  
Jordan Quinn, The Hartford  
Robert Schill, HERE Technologies

**New Economy**

Vikrum Aiyer, Postmates  
Philip Minardi, Expedia  
Jake Swanton, Lyft

**Unmanned Aerial Systems**

Ben Gielow, Amazon  
Matt Satterley, AirMap  
Ryan Gammelgard, State Farm  
Katie Ott, Exelon

**Telecommunications & E-Commerce**

Melissa Tye, Verizon

More information about the working groups and committee as well as full biographies of the co-chairs are available online [here](#).

The working groups and policy committee are made up of a diverse set of interests and industries converging around a common goal to advocate for policy solutions that promote emerging technologies. Over the past year, they have lead efforts to pass legislation calling for autonomous vehicle testing, convened policy discussions with administration and agency officials, and sent letters of support to Congress on specific technology policies. Congressional and administration officials and staff regularly attend and address the working group and policy committee meetings.

For information on the working groups and future meetings, please contact [C\\_TEC@uschamber.com](mailto:C_TEC@uschamber.com)

C\_TEC brings policymakers and tech industry leaders together to advance policies that promote the role of technology in the economy. It also partners with other divisions within the U.S. Chamber on issues such as national security, transportation, health care, and labor.

The U.S. Chamber of Commerce is the world’s largest business federation representing the interests of more than 3 million businesses of all sizes, sectors, and regions, as well as state and local chambers and industry associations.
