A comparison with the preceding year is given in the following statement:

N 2606

0000-NLI-000017900-A

\$1,569,069.47 show a gratifying increase over preceding years, and after paying dividends of \$1,043,280, enable us to add \$525,789.47 to Surplus Account which now shows a credit balance of \$1,962,831.04 and is actively employed in the business. A large "Surplus Account" is required for adequate working capital, and is also a provision against possible shrinkage in the value of the large stocks necessarily carried. During the period under review \$132,569.15 was expended for ordinary repairs and \$220,905.14 for new improvements, making an aggregate of \$353,474.29, all of which was charged to operating expense. While the value of inventory is on a lower basis than last year, "Stock on Hand" shows an increase of \$271,869.16 due to the necessity of carrying larger stocks to supply increasing demands.

During the year we bought a prominent white lead plant and business, to meet the increased demand and supplement existing properties. Plans have been approved for additional construction in other departments which will be hastened to completion. Generally the business may be said to be in a prosperous condition, and the properties in the best of order. The annual meeting for the year 1905 will be held in April, in accordance with the charter as amended March 19, 1903, but the fiscal year of the Company will continue to be the calendar year.

Thanks are due to officers and employees for faithful and intelligent service.

Respectfully,

L. A. COLE,

President.

We submit the foregoing statement to stockholders showing the financial status of the Company at the close of 1903, and the results of the business for that year. The aggregate tonnage was slightly increased over 1902, and our capacity was heavily taxed during the busy season; the later months were not so active as in the previous year. The net earnings
