13 February 1975

Memorandum For: Members

Subject: Pretreatment Standards for Asbestos Manufacturing Point Source Category (40 CFR Part 427) which discharges to Publicly Owned Treatment Works

Enclosed are the final Pretreatment Standards for existing sources within certain subcategories, which include the Asbestos Manufacturing Point Source Category which discharges to Publicly Owned Treatment Works, as promulgated in the Federal Register, Vol. 40, No. 29, February 11, 1975. No substantive changes were made from the proposed regulations except the format was changed for clarification.

The regulation specifically addresses the following subcategories: Asbestos-Cement Pipe, Asbestos Cement-Sheet, Asbestos Paper (starch binder), Asbestos Paper (elastomeric binder), Asbestos Millboard, Asbestos Roofing, and Asbestos Floor Tile.

No limitations are imposed on the industry in regard to the pH and total suspended solids pollutant properties in the Asbestos-Cement Pipe and Sheets, Asbestos Paper with starch and elastomeric binders, and Asbestos Millboard subcategories. In addition, no limitations are imposed on the industry in regard to pH, chemical oxygen demand and total suspended solids pollutant properties in the Asbestos Roofing and Asbestos Floor Tile subcategories.
