Mr. Earland E. Harvey
98 Alsace Avenue
Buffalo, New York 14220

Subject: Wheelabrator Dust System Joint Cement Manufacturing - Akron, New York Gypsum Plant

Dear Earl:

I have reviewed the final drawings for the above subject and it appears that you have included all of the requested modifications to the Wheelabrator system. I have asked Jack Rauch to proceed with the work as outlined on your drawings.

I would like to take this opportunity to personally thank you for the efforts that you put forth on all of the Akron jobs; your expertise was invaluable to the completion of these projects.

Sincerely,

George Turner
Project Engineer
Gypsum Division
