School, from which she was
graduated this year.

While attending Miss Burke's,
Joanne was editor of the Year
Book and won a special award
as the best fourth-year Span-
ish student. Palo Alto Times

The Necklace Cotoneaster
reaches three feet in its arch-
ing growth; evergreen, it
features white flowers and
red fruits. It makes a good
low foundation box plant.
Rockspray Cotoneaster (C.
microphylla) spreads to
three feet and can be used
effectively over walls or along
steps. Its dark green leaves,
gray underneath, are inter-
spersed with white flowers
and rosy-red berries.

Get acquainted with several
of the Cotoneasters and learn
the many ways they can be ef-
fectively planted in a garden or
yard. September 30, 1955 P. 13
