

DRS. NADLER AND BLOCH
PRACTICE LIMITED TO INTERNAL MEDICINE
1520 LOUISIANA AVENUE
NEW ORLEANS 15, LOUISIANA

April 9, 1957

Dr. Robert Kehoe
C/O Kettering Laboratories
Eden & Bethesda Street
Cincinnati 19, Ohio.

Dear Doctor Kehoe:

In keeping with our telephone conversation you may recall I would like any data recorded in the literature on excretion of lead in the urine, blood lead figures and any reprints that you may think valuable for my file in attempting to defend medical legal suits on lead intoxication. In addition any statements that you may have, and any references you may have with reference to the effects of versenate on lead excretion.

I shall greatly appreciate hearing from you.

Most sincerely yours,

Sam Nadler
SAMUEL B. NADLER, M.D.

SBN:EOL

P. S. We should like another lead container sent down to replace the one we sent up there.
