Dear Byron,

Thank you for meeting with IPC members earlier this week. Several of our members said that the meeting with you and Administrator Pruitt was the highlight of the week.

In advance of our written comments for the May 15th docket, I wanted to provide you with some timely information about two of the issues we discussed, the negotiated rulemaking on TSCA reporting of byproducts, which starts on Tuesday May 9th, and the RCRA Hazardous Waste Generator Rule, for which there is a court order for June briefing.

Please find below and attached the meeting notice provided by EPA's facilitators, along with their situation report and our comments on the situation report. As we said during the meeting with you and the Administrator, we look forward to collaboration with the EPA and we are hopeful that after a proper vetting of this issue by the negotiating committee, a rule will be proposed and finalized that allows EPA and industry to better focus our resources.

Additionally, with regards to the November 2016 RCRA Hazardous Waste Generator rule also discussed during the meeting, we hope that EPA will speedily agree to putting the case in abeyance for a limited period of time to allow for settlement discussions. We are currently under court order to start briefing this case in June, but as we mentioned we would prefer to work with EPA to address our concerns. Agreeing to a abeyance will allow EPA and industry to avoid dedicating a lot of resources to briefing the court on an issue that potentially could be resolved through settlement.

Thank you in advance for your assistance, and please let me know if there is additional information that you need.

Sincerely,

Fern Abrams

Subject: Final Materials for May 9-10 CDR Byproducts Meeting

Hello Everyone,

This e-mail is being sent to everyone interviewed as part of the convening process for the EPA Chemical Data Reporting (CDR) Inorganic Byproducts Negotiated Rulemaking and individuals nominated by their organizations to be Committee Members.

Attached are final documents to prepare for our upcoming organizational planning meeting on May 9-10, 2017 at the Capitol Hilton, 1001 16th Street NW, Washington, DC. We will be in the South American Rooms A & B, and the meeting is scheduled for 9am to 5pm on May 9th and 9am to 3 pm on May 10th. Those of you who have been nominated as Committee Members – please let us know if you will not be able to attend the meeting (or parts of the meeting), if you haven't already.

Attached information includes:

- ✉ **Agenda**
- ✉ **Operating Protocol** that describes how we propose to conduct the regulatory negotiation. Please read the draft before the organizational planning meeting. We will discuss it at the meeting, make any needed changes and approve it at the first reg-neg meeting on June 8-9th. We look forward to your insights and comments on how we will conduct our work together.
- ✉ **Situation Assessment**, which will form the basis of much of our conversation.
- ✉ **Web resources for key background information** that was compiled by EPA.

Please let us know if you do not want to be included on future e-mails. Future information will also be saved here: <https://www.epa.gov/chemical-data-reporting/negotiated-rulemaking-committee-chemical-data-reporting-requirements>.

Do not hesitate contacting us with any questions.

Laura and Chris
