**ALL-PURPOSE
BUILDING PAPER**

The high-strength low cost building paper for use as wall sheathing paper beneath cement-stucco work. This breather type asphalt impregnated paper has a long fibre content that makes it extremely tear resistant, an important feature while installing and nailing. High structural stability makes it easy to fold around corners and easy to trim without tearing or fracturing. Once you've used Leatherback ALL-PURPOSE Building Paper you'll want no other. Why not try it on your next job?

**REFLECTIVE
STORM BLANKET**

The new 3 in 1 insulating material for direct-to-stud applications. This 3 in 1 material provides (1) insulation by reflecting radiated heat, (2) protection for summer heat and winter cold, (3) a Flame Barrier when properly installed between studs, and (3) a Moisture Barrier meeting all FHA Class A moisture barrier requirements. Leatherback Reflective Storm Blanket consists of a heavy aluminum foil bonded to a flame-proof backing sheet. Available in 36 in. x 500 ft. rolls, packed in square corrugated containers for full roll protection. It's a low-cost, high quality material that's easy to handle and easy to install. Write for complete information.
