To: Participants in "Asbestos and Talc" Discussion Session at FDA
on August 3, 1971

Attached is a summary of our recent Discussion Session on "Asbestos and Talc." As many of you know, I have requested submissions of detailed analytical procedures from all of the laboratories represented which perform such work. At this writing, I have received most, but not yet all, of the material requested. When the submissions are complete, I shall proceed with the synthesis of these data into a package which will be circulated for comment.

Thank you once again for your assistance and participation.

Sincerely yours,

Alfred E. Kinsler, Ph.D., Acting Director
Division of Color and Cosmetics Technology
Office of Product Technology
