Perfect. I agree morning is the best for me as well. What day this week would work for you? 7:30 or at your convenience sounds great.

Dear Ryan:

It might be helpful to arrange for a time to speak. It is generally best for me to speak early in the morning since most action with student etc starts later in the day. I typically get into work at about 7:30 am. My secretary actually arrives at 6 am. Let me suggest speaking in the morning this week or whenever your schedule permits. I really no time restrictions....whatever works best for you....including evenings.

Hi Ryan, I hope you're doing well. We haven't connected since your new gig (and since left WSJ for Axios). I hope you're enjoying your new gig!

We're hearing some stuff about the Paris deal, in particular how Administrator Pruitt has been involved, and we're hearing President Trump is looking to decide this week to withdraw from it. Would you be able to talk about this sometime today on deep background? I'm at 202.906.9629.

Thanks so much, and I hope to hear from you.

Amy
