Asbestos, Que. P.Q.
June 7, 1938

E. P. Woodard - Chi. Sun Tel

Industrial Hygiene - Asbestos
Yours of June 2nd

Doctors Smith and Cartier have arranged to be in New York next Monday morning, June 13th. Dr. Smith phoned Dr. Lanza and has made all necessary arrangements. Dr. Smith will be in touch with you while in New York to give you his impressions.

For your information, Mr. Lindall mentioned to Dr. Smith and I that the subject of cancer of the lungs was discussed at the A.A.I.A. meeting last Monday and the Association went on record as favoring a cancer research program. The subject is to receive full discussion at their next meeting. No doubt they will appreciate receiving Dr. Smith's and Dr. Cartier's recommendations.

Yours,

C. H. Fisher
