May 10, 1974

E. P. Wheeler - A2SA
G. J. Levinskas - A2SC

P. L. Wright - A2SC

This note is to tell you again how important your testimony was at the cross-examination of Monsanto's testimony on PCB's at the Toxic Pollutant Hearings in Washington, D. C.

All of us at the hearing really appreciated your flying to Washington on about 30 minutes notice to be with us Wednesday night and Thursday. Without your participation and testimony the hearing would not have been as effective for Monsanto as I feel it was.

Many thanks.
