> Dr. Liu,
>

> It has been a few years since we have talked, but I did enjoy the
Shanghai Conference in 2003 very much and appreciated your invitation to
speak.
>
> Attached you will find an abstract in Chinese and a paper in English
entitled "Serum dioxin and furan levels among trichlorophenol and
pentachlorophenol workers with chloracne" that we would like you to
consider for publication in the Journal of Environmental and Occupational
Medicine. We have noticed a great deal of interest in pentachlorophenol
in Chinese scientific journals and the experience of our
pentachlorophenol workers we thought would be of interest to your
readers. This paper has not been submitted elsewhere.
>
> Thank you for your kind consideration and let me know if there is
anything else you need.
