REQUEST TO MONSANTO COMPANY
FOR SAMPLE QUANTITY OF PRODUCT
CONTAINING POLYCHLORINATED BIPHENYL ("PCB")

1. Name and address of organization making request:

American Cancer Research Center and Hospital

6401 W. Colfax Ave.

Lakewood, Colorado 80214

2. PCB product requested: Aroclor 1254

3. Quantity requested: 50 ml

4. Reason for request: This compound is needed to inject into rats for the purpose of inducing microsomal liver enzymes which are needed as part of the Ames bacterial test for carcinogenicity.

5. Use to which sample of PCB-containing product will be put:

As described above.

6. Disposition to be made of any unused portion of sample:

We anticipate to use the entire sample since we are embarked on a long term project. However, if any portion of the sample remains unused we will dispose of it by the same procedure we employ for disposal of carcinogen-contaminated materials and radioactive waste.

MONS 096211

7. Names and brief description of educational background and job responsibility of person(s) who will be working with sample:

Elias Balbinder - Ph.D 1957 - Indiana University

Professor of Genetics - Syracuse University - Dept. of Biology - 1963-1965

Present Position - Director of Genetics & Carcinogenesis Research - American Cancer Research Center & Hospital, Lakewood, Colo. 80214

The undersigned organization represents that: the foregoing statements are true; it understands that if Monsanto elects to supply the requested sample of a PCB-containing product, Monsanto does so in reliance on the truth and accuracy of the foregoing statements; the person(s) designated by the undersigned organization who will be working with the sample is (are) aware that PCBs have been identified as a potential hazard to the environment and that regulations concerning their use or disposition are contemplated or may exist; that the label accompanying any sample will be read and cautions and instructions thereon will be observed; and that care is required in the disposition of PCB-containing products so as to avoid any adverse effect on human health and the environment.
