Mr. Steven D. Dexter
St. Louis, MO

Dear Mark:

Attached is a file regarding the subject and his questions to us concerning clutch facings as relates to asbestos dust hazards.

I have also attached a copy of Management's correspondence to Mr. Dexter. We have done some investigating and found out that Mr. Dexter is employed by one of our accounts, Standard Automotive Components, St. Louis, Missouri.

I would like you to discuss the attached file with the management of Standard Automotive Components and alert them of this situation. This will take them aware of what has taken place between one of their employees and ourselves.

Donald H. Gundersen
