**REFORMULATING COSTS
GOVERNMENT REGULATIONS**

Mr. R. E. Minucciani, Sai
Mr. A. S. Adkins, Reading
Mr. R. C. Andrews, Nubia
Mr. E. W. Henschel, Centra
Mr. E. B. Euchner, DPJ
Dr. G. E. Pekarek, DPJ
Mr. W. E. Reich, DPJ
Mr. C. Throne, DPJ
Mr. P. V. Robinson, DPJ

The Accounting Department has requested our assistance in assembling information on the cost of reformulating our products to conform to the various government regulations on removal of lead, removal of mercury, and replacement of objectionable solvents with the exempt type.

These data are required to substantiate the company's request for government sanction to adjust prices to recover those costs.

We would appreciate your completing and returning the attached form no later than August 24.

Please list each formula your laboratory has reformulated for reasons of government regulations, including resins, intermediates and finished products.

We realize this is a difficult assignment but careful documentation of the facts will be required to support the company's position. Solicit your local Accounting Department's aid in recovering the numbers.

Bill Tomc - I hope to be able to swing this so you will not be required to complete this form with details of the formulas you have converted. We will need though the charges in hours and in dollars, and the numbers of the covering DPR's.

Thanks.

Nusser
