

1 didn't review an '84 manual?

2 A No, because that was done before then.

3 Q That was done before 19 --

4 A That was done in 1983.

5 Q We are able to place your review to at
6 least 1983?

7 A No, 1983 or before.

8 Q What is the service publications
9 department?

10 A I don't know.

11 MR. KUNDLA: I think you already asked the
12 witness that question. I'm pretty sure his
13 response was the same.

14 MR. CIFALDI: I'm sure it was. What I
15 would like to do is request the name or names of
16 the individuals that head the service
17 publications department now and in 1983, and if
18 they are no longer with Chrysler I would like to
19 request their last known address.

20 I would also like to request the
21 name of the individual or individuals that were
22 in charge of that department, if it existed in
23 1973, since it appears from this memo those
24 people were responsible for putting together the
25 service manuals.
