Ms. Carol Stack
Chemical Manufacturers Assoc. Inc.
2501 M Street N.W.
Washington, D.C. 20037

Dear Carol,

Confirming our conversation of this date, please be advised that Stauffer Chemical Company has reduced their nameplate capacity for PVC production by 240MM lbs.

This reduction is the result of the sale of our Delaware City, Delaware plant to Formosa Plastics Corporation USA, effective April 31, 1981.

Please correct your records accordingly and forward any questions to my attention in Westport, CT 06881. If you have a mailing list(s) for Stauffer Chemical Co., Plastics Division, it would be advisable to send me a copy or copies so that they could be revised and returned to you with up-to-date correct information.

Sincerely,

STAUFFER CHEMICAL COMPANY
