Mr. Ron Morrow
Safety Director, Massena Operations
Aluminum Company of America
P. O. Box 150
Massena, New York 13662

Dear Mr. Morrow:

Under the authority of the Williams-Steiger Occupational Safety and Health Act of 1970, Subpart C, 1910.20(d), I am requesting the following employee medical records in conjunction with inspection D0817-071, which began on 6/21/79.

On the following named employees, I am requesting all urinary fluoride test results from 1974 to present; additionally, reports on all P - A, lateral and lumbosacral spine roentgenograms for the same time span. I request this information be reported by employee name and clock number:

Art Belile
Gerald Debien
Dave Fountain
Bob Meacham
David Colby
Randy LeClair
John Haulston
Gary Tatiro
Dave Pepe
Rod Carney
Wesley Charleston
Jerry Clary
Robert Pearson

Pursuant to authority in Subpart Z, 1910.1001 (6) (ii), I am requesting results of annual medical examinations that should include reports on P - A chest films pulmonary function tests, including FVC and FEV 1.0 and any history relative to symptomatology of respiratory disease. This information should be reported by employee name and clock number. The employees involved are categorized as mold repairmen in building 221. The aforementioned medical reports should include those exams classified as preplacement and termination-transfer if the annual exam does not qualify as an acceptable substitute. Time frame would be 1/31/73 to present.

4 other mold repairmen who handled the sanding
of marine headers.

Referring again to Subpart C, 1910.20 (d) and including Subpart G 1910.95(b)(3),
i.e. elements of a minimally effective hearing conservation program, I am
requesting baseline and the most recent audiometric tests for the following
employees:

Board
Richard Plowed
Herbert Walker
Wesley Lester

Boat Cleaning Station - Boat Plant
Boat Cleaning Station - Boat Plant

Your prompt reply to my request would be greatly appreciated.

Sincerely,

Chester C. Whiteside
Area Director
Syracuse Area Office
