

1 correct?

2 A Yes.

3 Q Okay. What is biostatistics?

4 A Biostatistics is the application of
5 statistics, analysis, data analysis to medical data.

6 Q That ties into occupational epidemiology?

7 A Oh, absolutely.

8 Q I think you also mentioned that you studied
9 industrial hygiene; is that right?

10 A I took quite a few classes of industrial
11 hygiene when I was in school.

12 Q Now, we have heard from industrial
13 hygienists during this trial and some of them have
14 been certified industrial hygienists.

15 Are you a certified industrial hygienist?

16 A Oh, no, I am not.

17 Q Why did you take the industrial hygiene
18 courses then?

19 A I hope we will get a chance to talk about
20 exposure later on today, but one of the most important
21 components in any studies is exposure, how high or how
