

MEMORANDUM OF CONVERSATION

TELEPHONE CONVERSATION: J. L. Worstell - EPA HOTLINE
11:00 a.m., September 24, 1981

"My name is Jack Worstell. I called you yesterday about a vinyl chloride release.

"We've had time now to make more detailed and refined engineering calculations. Yesterday, if you recall, we told you that the release was roughly 800 lbs. of vinyl chloride. Based on better calculations, that number should be 113 lbs.

"I assume you'll revise the report accordingly?

"Right. Thank you very much."

.

The telephone call was to Ms. Welsh of EPA HOTLINE in Philadelphia. The number called was (215) 597-9898 at approximately 11:00 a.m., September 24, 1981.
