Summer
is fine for
Painting

Save the surface and you save all;
to save the surface, white-lead it.

Paint Inside as well as Outside

Early summer is an especially favorable time to "do" the house all over, inside as well as outside. We shall be glad to tell you why.

Interior walls and woodwork decorated now with paint made of

Dutch Boy White-Lead

and Dutch Boy Flatting Oil will add a coolness and freshness to your rooms which will be doubly appreciated during the hot summer months. Any desirable tint. Truly washable.

Our materials are reliable, our prices right. Let us estimate on your work.
