Re: Insulation for Piping

Gentlemen:

We are pleased to quote the total sum of $3,192.00 plus $19.70 tax, to insulate and weatherproof pipe and fittings as pointed out by your Mr. Larry Peters and as described below:

1. Platformer Feed System Piping
   Replace approximately 30 feet of 8" pipe insulation, of which half is double layer, along with 10 to 12 elbows and miscellaneous patching. The pipe covering and 8 ell covers are to be furnished from your warehouse.

2. Gas - Oil Unit
   Insulate and weatherproof approximately 70 feet of 2" and 3" pipe and fittings with all materials furnished by us. Weatherproofing to be 45 lb asbestos base felt.

3. Blowdown and Condensate Lines per items 1 through 5, shown on S.O. 2325.
   Insulate and weatherproof approximately 1400 feet of 1½", 2", 3" and 4" pipe and fittings. All materials to be furnished by you except the weatherproofing. We furnish the .016" corrugated aluminum jacket with straps and seals.

4. # 6 Crude Unit and FCC Unit per S.O. 44140
   Insulate and weatherproof approximately 700 feet of 3" pipe and fittings for C-1602 top S/C to C-1901. We are to furnish all materials including .016" corrugated aluminum jacket and sundry erection items.

This quotation is based on all work being performed during regular work hours. Further, all materials which you are to furnish shall be delivered to the plant area where required.

We appreciate the opportunity to quote on your insulation requirements and hope we may be of service.

Respectfully submitted,

WILLARD A. SELLE, INC.
