Dr. W. J. McConnell
Assistant Medical Director
Metropolitan Life Insurance Company
1 Madison Avenue
New York, New York

Dear Dr. McConnell:

I have meant to write you before but I have been away for a few weeks.

I wanted to tell you in a general way how much we have appreciated the survey that was made by Messrs. Fennell and Ferry. The various superintendents and directors of personnel have been quite pleased with the reports. I hope you will see fit to commend Mr. Ferry and Mr. Fennell for their very fine work in our plant.

Also many thanks for the Health Protection pamphlets relating to welding, chromium and degreasing operations.

In regard to servicing other plants, apparently Pittsfield is not interested at all; Lynn wants the survey later this year and I believe Fort Wayne is anxious to have the survey made there and possibly in some of their satellite plants as soon as you can handle it conveniently. In due time I have faith that all of our plants will want this survey service but simply are not aware at the present time of its full value.

Kindest personal regards.

B. L. VOSBURGH, M. D.
Medical Director
