Subject: Superfund Sites Listed for Immediate, Intense Action

Hi Eric and Bill,

I am reaching out regarding the inclusion of Allied Paper, Inc./Portage Creek/Kalamazoo River Superfund Site on the Administrator's site list for immediate action. I want to emphasize that this announcement is in direct response to the Superfund Task Force Recommendations issue in July 2017. The site's inclusion on the list means that the Administrator feels it requires an expeditious resolution of a specific issue for cleanup and redevelopment, as well as his direct engagement. Furthermore, the targeting of the site does not indicate that it is most in need of federal funding. Rather, it is included because of potential site-specific action that will facilitate near-term progress. The National Priority List is forthcoming.

Should you or Governor Snyder have additional questions, please feel free to see our [Q & A site](#) on the topic, or give me a call. The Administrator looks forward to his conversation with the Governor later this week on PFAS.

Thanks,
Preston Cory
