Given the limited extra funds requested, it may not be worth it at this time but, I like the idea. We need to think about this way of getting all the businesses involved on the big issues in the future.

One avenue is to move the cost to Shell Health Services with a prorata charge back to key businesses, S&D, Chemicals, Manufacturing.... Not sure we can pull that off but there is now a single SLA with SHS which is managed across DS. If interested, I can dig into options.

Ed,

We do need to understand the billing process, we also have a \$0.5MM invoice in January for the original project funding. I can get Olga to look at the PBU budget and see what I may have, it won't be much excess but, if we only have to cover \$200-400k it might fit (combined with yours).

Stacy
