Attention: Mr. W. H. DeBruin
Engineering Associate
Development Department

Gentlemen:

Thank you for your letter of September 21st. The information which you have given us will be very helpful in our design of the coil for the one hour duty solenoid.

We have forwarded this information to our engineering department, and have requested that they provide us with part numbers, ohmic values and sample coils which you requested. As soon as this material is available, we will forward it to you.

We are attaching our quotation for the complete range of solenoids and coils which you will be purchasing. This quote supercedes our quotation dated August 21, 1973. If you have any questions, please contact me.

Yours very truly,

Robert H. Kantner
Staff Sales Engineer
