REFER TO:

August 17, 1967

Mr. H. P. Hoopes
Product Manager
Fiberboard Products Corporation
475 Brannan Street
San Francisco, California

Dear Mr. Hoopes:

Enclosed is a preliminary program for the eleventh Western Industrial Health Conference. The Friday afternoon session on asbestos should be interesting and I hope you have an opportunity to attend.

Sincerely yours,

Jeremiah R. Lynch
Senior Sanitary Engineer
Engineering Section
Occupational Health Program

Enclosure

August 24, 1967

Mr. Jeremiah R. Lynch, Senior Sanitary Engineer
Engineering Section
Occupational Health Program
Department of Health, Education, and Welfare
National Center for Urban & Industrial Health
1014 Broadway
Cincinnati, Ohio 45202

Dear Mr. Lynch:

We are arranging for your visit and the asbestos sampling during the week of September 28. We understand that your Dr. Lainhart will be in San Francisco at an earlier date and available to discuss this situation with you and with the union should this be desirable.

I appreciate a copy of the program for the Western Industrial Health Conference and am planning to attend the Friday afternoon session on September 29. Can you tell me if it is necessary that I officially register for this?

We are looking forward to seeing you and your organization the week of September 25.

Yours very truly,

H. F. Hoopes, Technical Director
Pabco Industrial Products Division

bc F. A. Nordstrom
F. D. Van Der Husden
R. E. Whitby

P.S.: I suggest the plant be as clean as possible during the test period; particularly the 3rd floor and finishing areas. It will help (if the new wet dust system is not installed) to <u>not</u> be running the milling machine.

HFH
