

FROM J. E. Southwick DATE June 28, 1972 FOR Mr. S. T. Bowell
CITY Coatings & Resins Research Center cc: Mr. R. J. Haviland
Strongsville, Ohio Mr. H. M. Werner
ANSWERING LETTER OF Mr. M. Malaga
SUBJECT Lead Removal Formulas Mr. W. M. Tomc
Y-5634D, Y-5734C Mr. J. G. Kingston

The subject formulas are being issued to remove all lead compounds. Lead drier feeder is being replaced by cobalt drier feeder E398. Zirconium and cobalt driers are again being used to replace lead drier. For Y-5634, Silcron G100 (N320) replaces N318. This completes the conversion to Glidden silica. Y-5634 is made in Reading and Y-5734 is buy out from Wooster Finishes.
