1st December, 1942.

Dear Mr. Shepherd,

As promised, I enclose a Note of our Meeting at Shell-Mex on Friday last the 27th November. If you have any important amendments to suggest, perhaps you will be good enough to give me a ring.

I also enclose a Statement headed Appendix A, Appendix B, and Appendix C which set out the arithmetical basis on which allocations as between U.K., U.S., and other destinations have been worked out. So far as the figures refer to material not produced by your companies, I should be glad if you would regard these as highly confidential.

I should perhaps add that my figures do not agree exactly with those as calculated by Mr. Sheriff, and that consequently they should be regarded as absolutely firm at this stage. I am sending them to you, however, because I understood from Mr. Bateman during our telephone conversation yesterday afternoon that even provisionally figures which are fairly near the mark would be helpful to him.

Yours sincerely,

(Sgd.) W. RENNISON
