~~Flamemastic~~ Flamemastic
do what we can to
material, or

the limit for asbestos was reduced
cubic centimeter. Presently both
to reduce the limit still further -
centimeter. Although our limited
at Flamemastic applicators do not
we would certainly prefer to use a
in asbestos if such a product is
ion of asbestos is only part of the
er in which the OSHA standard is
materials containing asbestos can put
g to comply with portions of the
associated with this.

I talked to Dr. Bonsignore, who was
s a competitive product available
os. Furthermore, he thought that
be using asbestos. I believe it is
firm these opinions. If we find
ains asbestos, I think we should do
manufacturer to give us a suitable
etitor's product.
