Dear Dr. Kehoe:

We have been requested to make spectrographic analysis on samples of blood and urine, especially for lead.

We will appreciate any suggestions you may offer concerning the formulation of standards and the establishment of a satisfactory procedure for this work.

Very truly yours,

S. R. Wiley
Spectroscopist

Dear Sir:

Our plant has started program for periodic monthly checks of employees handling lead or lead compounds. I would appreciate obtaining your methods for the determination of lead (Pb) in urine and blood.

Thanking you in advance...

Very truly yours,
JOHNS-MANVILLE CORPORATION
