Unemployment insurance
payments made from the State
Department of Employment's
Vallejo office totaled \$117,131
last month, as compared to
\$103,354 in September 1967.

However Peter Weinberger,
department director, said in
Sacramento Thursday that
statewide payments continued
to decrease in September,
dropping more than \$3 million
for the month, as compared to
payments made in the same
month a year ago.

The department paid out
\$24,364,787 to unemployed
Californians last month, com-
pared to \$27,461,765 disbursed in
September, 1967.

The decrease was attributed
both to improved employment
conditions throughout the state
and to savings in administrative
costs by the department.
