Cost Estimates/Cost Benefits Study

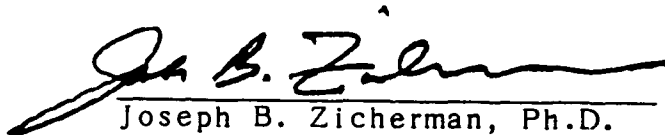

Dear Roy:

Per our arrangements, attached is the agreement dated August 19, 1988 for the "Technical Evaluation of PVC Market Opportunities" Study.

The only addition needed to put the contract into effect was inclusion of a payment schedule. For this reason we propose that nine (9) payments be made of \$4,000 per month to be billed starting September 15, 1988. Thus, there will be nine (9) payments of \$4,000 each totaling \$36,000. The final payment amount will be \$5,500. If the project is completed before the end of ~~ten~~ (10) months, we will issue a final bill at that time.

If this is satisfactory, please indicate by signing at the bottom of this letter and returning the appropriate copies of the contract. I have also included the signed documents related to the building code consulting project as well.

Sincerely Yours,

Joseph B. Zicherman, Ph.D.

Accepted By,

Roy Gottesman, Director
The Vinyl Institute
