ANSWER OF DEFENDANT FORD MOTOR COMPANY
TO REQUEST FOR PRODUCTION OF DOCUMENTS
TO DEFENDANT FORD MOTOR COMPANY

1. See attached.
2. See attached.
3. A sample label is not readily available. Labels were placed on cartons in 1980. Those labels read along lines such as:

"CAUTION: Contains asbestos fibers. Avoiding creating dust. Breathing asbestos dust may cause serious bodily harm. When servicing this brake lining or any component related to it or located near it, prevent asbestos dust from becoming airborne by vacuuming the assembly with an industrial type vacuum cleaner equipped with a high efficiency filter system and by washing the assembly with an appropriate brake parts washer if necessary. Never remove dust or dirt from this assembly by blowing with compressed air."
