Asbestos dust program in H. Systems

Done 1. Need doors on mixer hopper
Done 2. Mixer man needs protective clothing & gloves
3. Mixer man needs locker for hanging clothes
4. Need to update formal wr. Hen program for asbestos control
Done 5. Need vacuum cleaner for area around mixer.
to be used between all batches having asbestos

Done 6. Ready-mix mixer man wear mask when opening mixer.
7. All spill and dust on floor - vacuumed up and placed in bag labeled Asbestos Waste

Note: George Green has been trained for dust sampling and is getting equipment to analyze.

Audiometric testing
1. Build booth
2. Notify Hurd when we need tester - need two weeks' notice.
