Chemists Find More PCBs On Roads

RALEIGH (AP) — Chemists found additional polychlorinated biphenyls (PCBs) Friday in still readings taken from the shoulders of two more highways where chemical wastes were believed to have been intentionally dumped.

[illegible] PCBs in [illegible] Chemists found PCBs [illegible] along N.C. 50 from Garland to the Virginia line [illegible] and back about U.S. 401. A total of about [illegible] The other begins on State Street [illegible] stopping on the outskirts of the town and [illegible] east of Roanoke on N.C. 97 and continuing along State Route 1137, N.C. 301, U.S. 64 and N.C. 96 for about 30 miles.

[illegible] professor advises caution in dealing with PCBs. A-7

Officials said the chemical PCB has been confirmed [illegible] placed about 110 miles of highways in the state, with readings still being completed from about 60 miles of [illegible]

The State Bureau of Investigation, which has been [illegible] Thursday, continues its investigation of the criminal aspects. Approach for two men believed to have been a truck discharging a liquid in the Johnston [illegible] county area the morning of Aug. 1 to conduct [illegible] for interviews.

The two apparently tried to stop a similar truck on [illegible] North Carolina 210 east of Angier to tell the driver he was losing his cargo. They apparently gave up when the driver refused to stop.

SBI agents interviewed an Angier-area woman, Julia Pleasant, who said she woke up about 1 a.m. the morning of Aug. 1 and saw a dark-colored tanker truck being followed by a tandem wagon with the lights blinking.

Mrs. Pleasant told in a telephone interview Friday the truck almost came to a stop in front of her house and one of the men got out of the car. She said the truck pulled away and the man from the car told his companion to let the truck driver go if he wouldn't stop to be told material was coming out of the tank.
