March 21, 1984

Ms. C. Stack, Ph.D.
Chemical Manufacturers Association
2501 M Street
Washington, D.C. 20037

Dear Dr. Stack:

We have reviewed the EHA proposal for epidemiological update of workers potentially exposed to vinyl chloride.

Uniroyal gives its approval to Phase II.

Very truly yours,

March 16, 1984

Ms. Carol Stack
Chemical Manufacturers Association
2501 M Street, NW
Washington, DC 20037

Dear Carol:

Conoco Chemicals approves the Phase II proposal for the vinyl chloride epidemiology study update as proposed by EHA.

However, I do have one question. It is not clear if initial communication will be with the plant contacts or this office. At the least, I need to be copied on plant correspondence.

Sincerely,

Thomas G. Grumbles, C.I.H.
Director, Industrial Hygiene

Washington, D.C. 20037

Dear Carol:

Air Products approves the proposed Phase II extension of the VC epidemiology study for EHA as presented with your letter of 9 March, and agrees to the transfer of existing funds to support this study.

Very truly yours,
