Trump to Call for U.S. 'Dominance' in Global Energy Production

By Jennifer A. Dlouhy | June 25, 2017 07:00AM ET | Bloomberg Government

Donald Trump will tout surging U.S. exports of oil and natural gas during a week of events aimed at highlighting the country's growing energy dominance.

The president also plans to emphasize that after decades of relying on foreign energy supplies, the U.S. is on the brink of becoming a net exporter of oil, gas, coal and other energy resources.

As with previous White House policy-themed weeks, such as a recent one focusing on infrastructure, the framing is designed to draw attention to Trump's domestic priorities and away from more politically
